

## CERTIFICATION OF ACCEPTABLE CONSTRUCTION

### PROJECT INFORMATION

APN (Block / Lot No.)

DBI Site or Building Permit No. (if applicable)

Project Street Address

Project Name (Alias)

Use the table below to list the stormwater BMP Types and BMP IDs observed

BMP Type (e.g., Bioretention)	BMP ID (e.g., BR-1 to BR-4)

### CERTIFICATION OF ACCEPTABLE CONSTRUCTION

Name of Professional Civil Engineer or Registered Landscape Architect licensed in the State of California

Firm Name / Affiliation

I certify that I or my designated representative have conducted periodic observations of the site's stormwater best management practices (BMPs) at significant construction phases and at completion of the project. I have observed that all BMPs, as required and sized for compliance with the CCSF Stormwater Management Ordinance and the SFPUC Stormwater Management Requirements & Design Guidelines, have been constructed in general accordance with the Final Stormwater Control Plan (Approved with Conditions) and permitted Construction Documents.

Signature

Date

## CERTIFICATION OF ACCEPTABLE CONSTRUCTION INSTRUCTIONS

The purpose of the Certification of Acceptable Construction is to ensure the continued involvement of the stormwater designer through the construction phase of the project and to verify that the stormwater best management practice(s) (BMPs) have been built as designed and specified in the Final Stormwater Control Plan (SCP), Approved with Conditions. It certifies that the Professional Civil Engineer or Registered Landscape Architect who stamped the SCP (or a designated representative) has periodically observed BMP construction at key phases and after completion. The Civil Engineer or Landscape Architect who stamped the SCP on the Statement of Certification page must sign this document.

Please confirm that the Certification form is coordinated with the Final SCP (Approved with Conditions) as follows:

- The APN (Block / Lot No.), DBI Site or Building Permit No. (if applicable), Project Street Address, and Project Name (Alias) must be coordinated with the SCP Project Information Form;
- The BMP Types and BMP IDs must be coordinated with the SCP Stormwater Management Plan and Maintenance and Inspection Schedules;
- The name of the Professional Civil Engineer or Registered Landscape Architect Licensed in the State of California must be coordinated with the SCP Statement of Certification.

## SUBMITTAL INSTRUCTIONS

Submit this signed form to SFPUC or Port review staff (depending on project jurisdiction) at the address below upon completion of BMP construction. The project's Certificate of Final Completion will not be released until the completed form is received by the SFPUC or Port.
