

**The SFPUC's Hot Water Recirculation Pump Rebate Program requires applicants to submit a minimum of two (2) photographs of the pump meeting the following criteria:**

- One photo including a piece of paper with the date, address (including unit number for multi-family residences), and the pump (showing the manufacturer and model)
- One photo of the installed pump at either the water heater or under a sink
- For multi-family properties seeking rebates for pumps installed at more than one heater, you will need to include photos of each installed pump

**You may provide your photos by:**

1) Directly uploading your photos and scans in your online application in any of the following format types (pdf, .jpg, .tiff, .gif and .png) here. Do NOT upload HEIC format files, our system cannot accept them.

2) Email them to [waterconservation@sfgov.org](mailto:waterconservation@sfgov.org). Make sure all emails you send include your application number and that your photographs are named as your installation address with unit number.
