San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

**Executive Summary**

Since it was adopted on March 16, 2007, the WSIP Project Labor Agreement (PLA) has promoted the public interest by ensuring the timely and economical completion of WSIP projects. The WSIP PLA has provided the structure to promote efficiency of construction of the WSIP, facilitate the partnership between the SFPUC, Unions, and Contractors, provide for peaceful settlement of labor disputes, and facilitate the employment of residents.

Progress on WSIP construction projects provides employment for construction workers employed by union-signatory and non-union construction contractors. Sixty-two (62) WSIP contracts have been awarded subject to the WSIP PLA in the amount of \$2.248 billion in original contract award through September 30, 2022.

Construction Activity Highlights – Program-to-Date

**Contracting:**

- Sixty-two (62) construction contracts with a value of \$2.248 billion in original contract award have been awarded subject to the WSIP PLA.

**Employment:**

- Since inception, 16,184 construction workers were employed for 8,875,670 hours and earned wages of \$359,285,429 on WSIP PLA-covered projects.
- 1,545 San Francisco residents worked 659,826 hours and earned \$26,244,654 on WSIP PLA-covered projects representing 7.4% of covered hours and 317 full-time equivalent worker years.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. 6,574 residents of the Regional Service Territory earned wages of \$136,136,840 and worked 3,484,325 hours, representing 39.3% of covered hours and 1,675 full-time equivalent worker years.
- 15,238 pre-employment substance abuse tests have been administered to employees cleared to work on WSIP PLA-covered projects as of September 30, 2022. 203 people were prevented from working on WSIP PLA-covered projects due to receiving a non-negative result.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – First Quarter 2022-2023

Construction Activity Highlights – Quarter Ending September 30, 2022

**Contracting:**

- There were no contracts awarded during the reporting period.

**Employment:**

- 126 construction workers were employed for 7,174 hours and earned wages of \$373,589 on WSIP PLA-covered projects.
- 30 San Francisco residents worked 2,180 hours and earned wages of \$112,769 on WSIP PLA-covered projects.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. During this quarter, 43 residents of the Regional Service Territory worked 2,148 hours and earned wages of \$99,755 on WSIP PLA-covered projects.
- No new pre-employment substance abuse screenings were administered under the provisions of the WSIP PLA Substance Abuse Policy.

**Summary of Craft Worker Employment**

| Region of Worker Residence | Three Months Ending September 30, 2022 |              |              |      |
|----------------------------|--|--------------|--------------|------|
|                            | Worker Count                           | Sum of Hours | Sum Of Wages | FTE* |
| All Workers                | 126                                    | 7,174        | \$ 373,589   | 3    |
| San Francisco              | 30                                     | 2,180        | \$ 112,769   | 1    |
| SFPUC Service Territory    | 43                                     | 2,148        | \$ 99,755    | 1    |
| Outside                    | 53                                     | 2,846        | \$ 161,065   | 1    |

\*FTE is the abbreviation for Full Time Equivalent. Since the workers on the projects may only work a few hours or days on the project, this is a way to determine the number of full-time positions created. It is found by taking the Sum of Hours divided by 2,080, the conventional value for total hours worked per year based on a 40-hour work week.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – First Quarter 2022-2023

**Summary Charts**

From the inception of the WSIP Project Labor Agreement in March 2007 through the current quarter ending September 30, 2022, 16,184 workers on WSIP PLA-covered projects have achieved a cumulative total of 8,875,670 craft hours and \$359,285,429 in craft wages.

The tables below describe the progressive accumulation of these totals over the past two years.

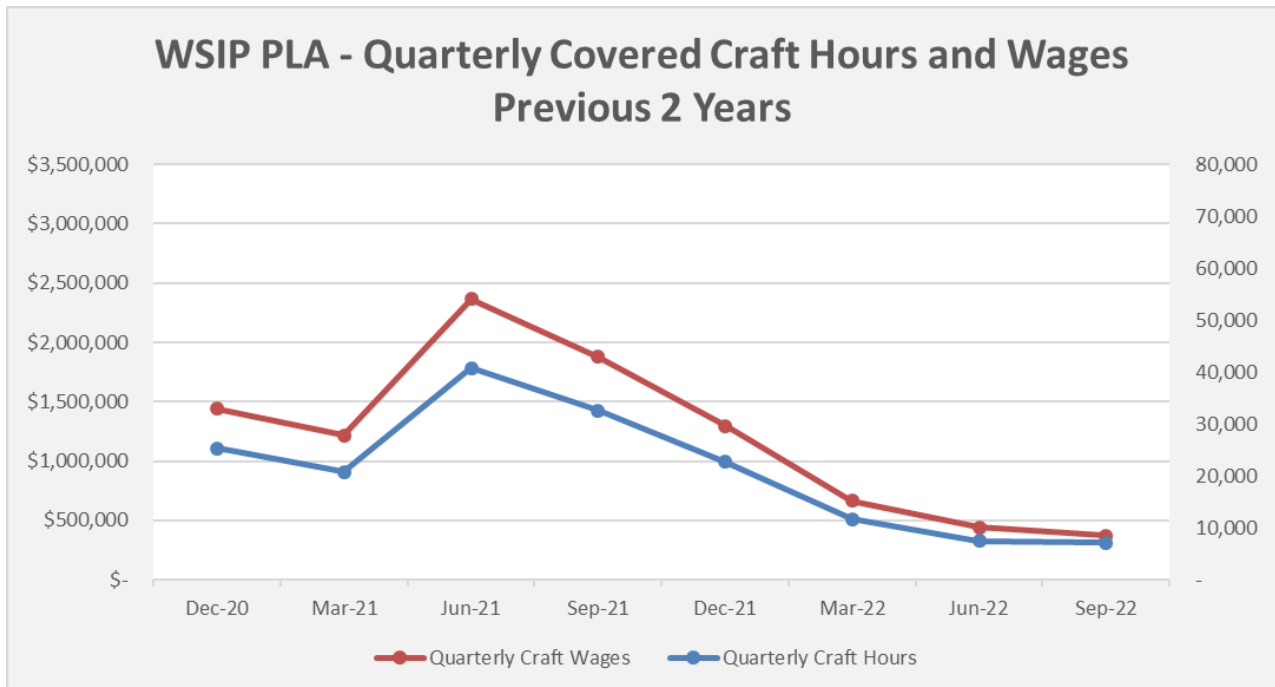

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – First Quarter 2022-2023

The top chart on this page illustrates the values recorded *during* each quarter since inception. With the program surpassing 99% total completion, Craft Hours have and will likely continue to trend down until total completion.

The chart below represents a close-up of the one above, highlighting the past two years.

Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

**Craft Utilization on WSIP PLA-Covered Projects**

As of September 30, 2022, contractors reported craft hours in 56 craft worker classifications that the SFPUC summarizes into 32 craft areas.

Illustrated here and in the following pages, Laborers, Operating Engineers, Carpenters, and Tunnel Workers, respectively, represent the majority of WSIP PLA craft workers to date. The Plumbers craft numbers include the Advanced Meter Infrastructure (AMI) project which was almost completely performed by Plumbers.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

**Apprentice Utilization**

The WSIP PLA supports the apprentice ratios provided by the State of California’s, Division of Apprenticeship Standards, generally one apprentice hour to every five journey-level hours.

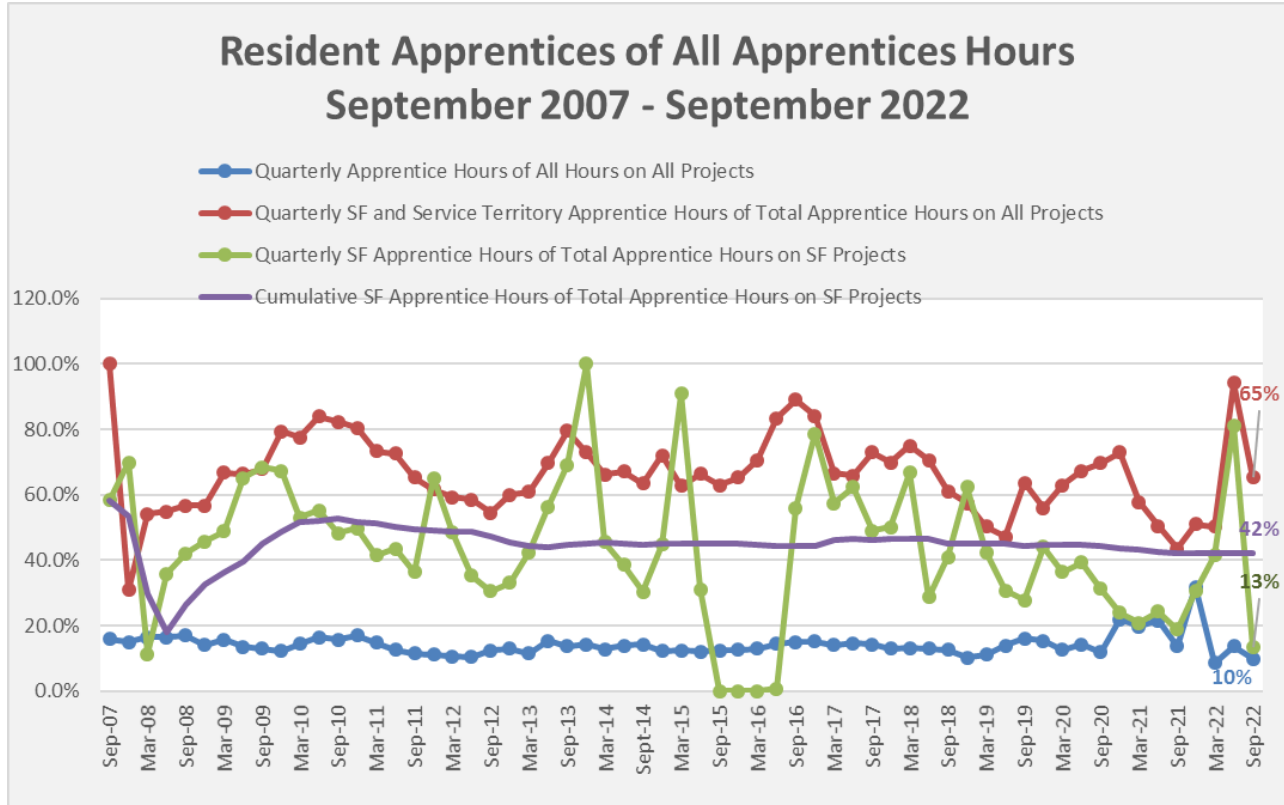

Through the end of the current quarter, 13.3% of craft hours in apprenticeable trades have been worked by apprentices. 16.4% of apprentice hours were worked by San Francisco residents and 52.8% were worked by residents of the Regional Service Territory, or 69.2% combined.

Sorted by Total Craft Hours

| Craft                                 | Total Hours | Total Apprentice Hours | Apprentice Hours    |                |               | Apprentice Utilization            |   |   | Resident Apprentice %  |  |  |

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – First Quarter 2022-2023

For the three months ending September 30, 2022, 13% of apprentice hours were worked by San Francisco resident apprentices on San Francisco-located WSIP PLA projects (green line). As the WISP program comes to a close, there are fewer opportunities for apprentices to perform work on projects resulting in the decrease of apprentice participation.

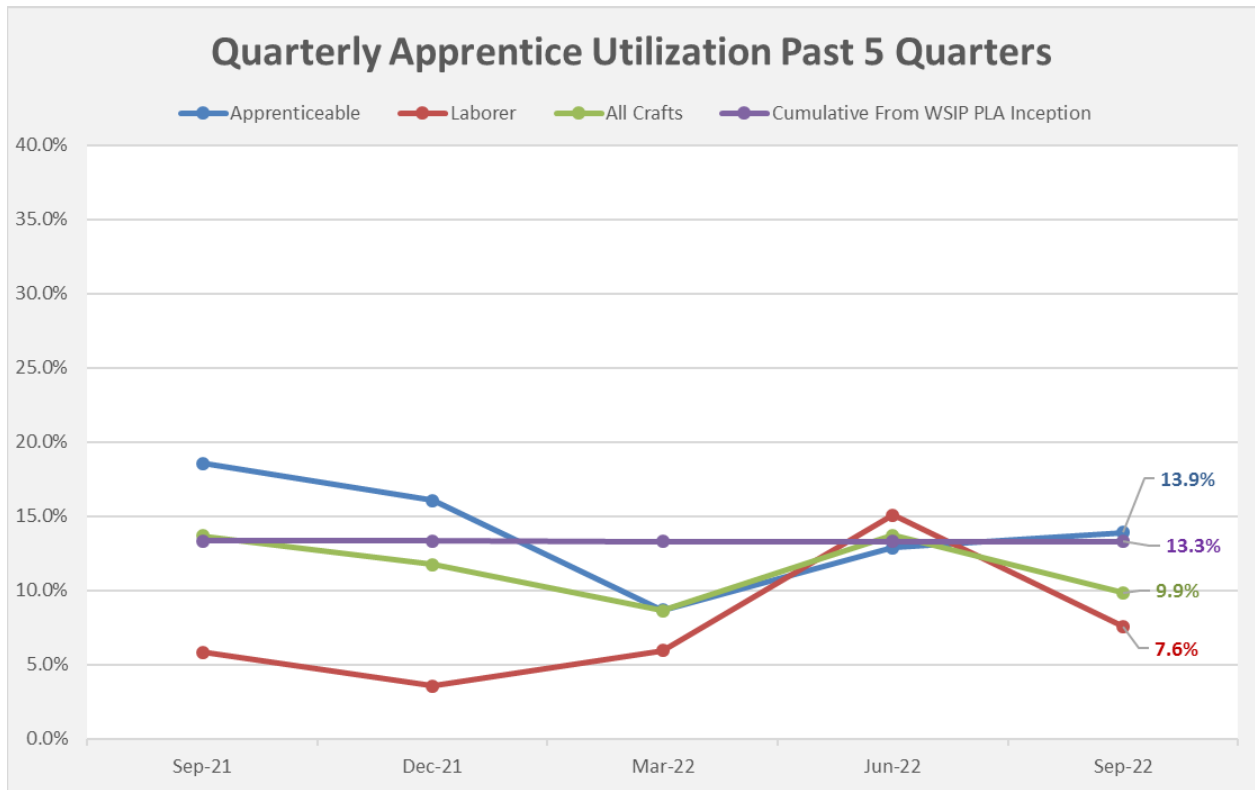

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

The table below lists the WSIP PLA-covered Projects *sorted by Percentage of Apprentice Utilization* from highest to lowest. The total Apprentice Utilization for the entire WSIP is 13.3%.

| WSIP - Covered by PLA Apprentice Utilization by Project<br>Inception Through September 30, 2022 |                                   |                                      |                                |                     |  |                             |                          |                        |                          |                      |                    |

Quarterly Report – First Quarter 2022-2023

The following chart indicates quarterly Apprentice Utilization over the past five (5) quarters ending September 30, 2022.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

**Substance Abuse Prevention**

The WSIP PLA requires pre-employment alcohol and drug testing for all covered employees. The policy also allows testing where the contractor has reasonable cause to believe that the employee has used drugs or alcohol, and mandates testing where a contractor concludes that an employee was under the influence of drugs or alcohol at the time of an accident. The SFPUC has extended the WSIP PLA substance abuse prevention policy to all contractor employees working on a job site.

**15,238** pre-employment tests have been administered as of September 30, 2022, to people who were cleared to work. 203 people did not pass pre-employment screens and consequently were prevented from working until the results could be confirmed through lab tests. Strict regulations and high compliance by the contractors have led to a mere **1.31%** of failed screenings. These numbers have a direct correlation with the outstanding safety record of the entire WSIP Program. The chart is on the next page.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

**Legislative History of the WSIP PLA**

On April 8, 2003, the San Francisco Board of Supervisors adopted Resolution 223-03 urging the SFPUC to develop plans for a Project Labor Agreement covering the capital improvement program to rehabilitate, repair, and upgrade the Hetch Hetchy Water System.

On May 20, 2003, the San Francisco Board of Supervisors adopted Resolution 350-03 urging the SFPUC to include social justice components in the Project Labor Agreement covering the Hetch Hetchy Water System upgrade.

On May 11, 2006, the San Francisco Board of Supervisors amended the San Francisco Administrative Code to establish a PUC Small firm Advisory Committee to provide for the certification of small construction contractors located outside San Francisco and within the SFPUC service territory for work on SFPUC construction projects, including those covered by the WSIP PLA.

On March 28, 2006, the SFPUC adopted Resolution No. 06-0049 to authorize SFPUC staff to commence negotiations with the various craft labor unions for a project labor agreement covering the Water System Improvement Program. Resolution No. 06-0049 concluded that the governmental interests of the SFPUC were furthered by a project labor agreement as follows:

“There are numerous advantages in moving forward on the negotiation of a PLA, which include but are not limited to the following: creates framework for labor harmony; militates against construction delays; assures steady supply of qualified labor; provides employment, career, and local business opportunities; and, other benefits ...”

On March 26, 2007, the SFPUC approved the negotiated agreement, called the Water System Improvement Program Project Labor Agreement (the WSIP PLA). The WSIP PLA requires construction contractors to utilize workers dispatched by signatory unions, and prohibits the unions and contractors from participating in strikes, lockouts, or other disruptions to the work. The WSIP PLA provides a procedure for adjudicating conflicting jurisdictional claims between the unions, provides for uniform hours of work, overtime, shifts and holidays, encourages the recruitment and training of low-income residents of the SFPUC service territory, and requires substance abuse testing for all covered workers. The first implementation of the WSIP PLA was on contract WD-2504, the Stanford Heights Reservoir Seismic Retrofit and Improvement project which the SFPUC awarded to S.J. Amoroso Construction Co., LLC, on June 26, 2007, in the amount of \$17,899,960.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – First Quarter 2022-2023

**Governance**

The parties to the WSIP PLA have established a four person Joint Administrative Committee that reviews the implementation of the agreement and the progress of the covered projects, and resolves problems and grievances that arise in connection with the agreement. The SFPUC administers the agreement under the direction of the Joint Administrative Committee.

The Joint Administrative Committee has established the Jobs Training Opportunities Program to promote the employment and training of San Francisco and SFPUC Service Territory residents on WSIP projects.

**Pre-Job Conferences and Jurisdictional Disputes**

Prior to the commencement of construction, representatives of the participating contractors and subcontractors, the Unions, and the SFPUC, are mandated to attend a pre-job conference held at the offices of the SFPUC or the offices of the local Building and Construction Trades Council. At the pre-job conference each contractor and subcontractor describes the scope of their work and assigns the work on the basis of traditional craft jurisdictional lines. When conflicting claims for work are submitted to a contractor, the WSIP PLA's Jurisdictional Dispute Resolution procedure is invoked to prevent delay or disruption in the work due to jurisdictional disputes.

**Web-Based Labor Compliance Program**

All SFPUC construction projects including those covered by the WSIP PLA utilize the City's web-based labor compliance program (LCPtracker, Inc.) which allows contractors to submit their weekly certified payroll reports electronically over the internet. LCPtracker's electronic certified payrolls are used to produce the employment data included in this report.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

**Executive Summary**

Since it was adopted on March 16, 2007, the WSIP Project Labor Agreement (PLA) has promoted the public interest by ensuring the timely and economical completion of WSIP projects. The WSIP PLA has provided the structure to promote efficiency of construction of the WSIP, facilitate the partnership between the SFPUC, Unions, and Contractors, provide for peaceful settlement of labor disputes, and facilitate the employment of residents.

Progress on WSIP construction projects provides employment for construction workers employed by union-signatory and non-union construction contractors. Sixty-two (62) WSIP contracts have been awarded subject to the WSIP PLA in the amount of \$2.248 billion in original contract award through December 31, 2022.

Construction Activity Highlights – Program-to-Date

**Contracting:**

- Sixty-two (62) construction contracts with a value of \$2.248 billion in original contract award have been awarded subject to the WSIP PLA.

**Employment:**

- Since inception, 16,206 construction workers were employed for 8,880,221 hours and earned wages of \$359,485,517 on WSIP PLA-covered projects.
- 1,550 San Francisco residents worked 660,571 hours and earned \$26,276,790 on WSIP PLA-covered projects representing 7.4% of covered hours and 318 full-time equivalent worker years.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. 6,583 residents of the Regional Service Territory earned wages of \$136,197,887 and worked 3,485,915 hours, representing 39.3% of covered hours and 1,676 full-time equivalent worker years.
- 15,238 pre-employment substance abuse tests have been administered to employees cleared to work on WSIP PLA-covered projects as of December 31, 2022. 203 people were prevented from working on WSIP PLA-covered projects due to receiving a non-negative result.

| Region of Worker Residence | Inception Through December 31, 2022 |              |                |       |

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

Construction Activity Highlights – Quarter Ending December 31, 2022

**Contracting:**

- There were no contracts awarded during the reporting period.

**Employment:**

- 78 construction workers were employed for 4,551 hours and earned wages of \$200,088 on WSIP PLA-covered projects.
- 22 San Francisco residents worked 746 hours and earned wages of \$32,136 on WSIP PLA-covered projects.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. During this quarter, 29 residents of the Regional Service Territory worked 1,590 hours and earned wages of \$61,047 on WSIP PLA-covered projects.
- No new pre-employment substance abuse screenings were administered under the provisions of the WSIP PLA Substance Abuse Policy.

**Summary of Craft Worker Employment**

| Region of Worker Residence | Three Months Ending December 31, 2022 |              |              |      |
|----------------------------|---------------------------------------|--------------|--------------|------|
|                            | Worker Count                          | Sum of Hours | Sum Of Wages | FTE* |
| All Workers                | 78                                    | 4,551        | \$ 200,088   | 2    |
| San Francisco              | 22                                    | 746          | \$ 32,136    | 0    |
| SFPUC Service Territory    | 29                                    | 1,590        | \$ 61,047    | 1    |
| Outside                    | 27                                    | 2,216        | \$ 106,905   | 1    |

\*FTE is the abbreviation for Full Time Equivalent. Since the workers on the projects may only work a few hours or days on the project, this is a way to determine the number of full-time positions created. It is found by taking the Sum of Hours divided by 2,080, the conventional value for total hours worked per year based on a 40-hour work week.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

**Summary Charts**

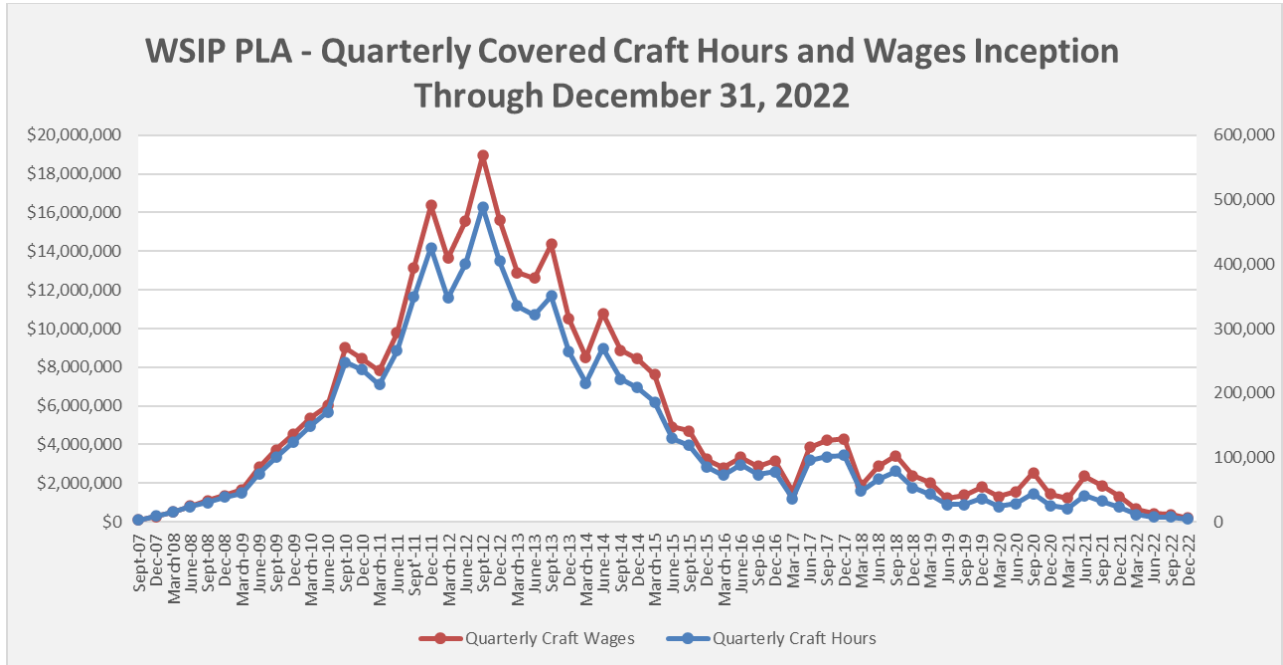

From the inception of the WSIP Project Labor Agreement in March 2007 through the current quarter ending December 31, 2022, 16,206 workers on WSIP PLA-covered projects have achieved a cumulative total of 8,880,221 craft hours and \$359,485,517 in craft wages.

The tables below describe the progressive accumulation of these totals over the past two years.

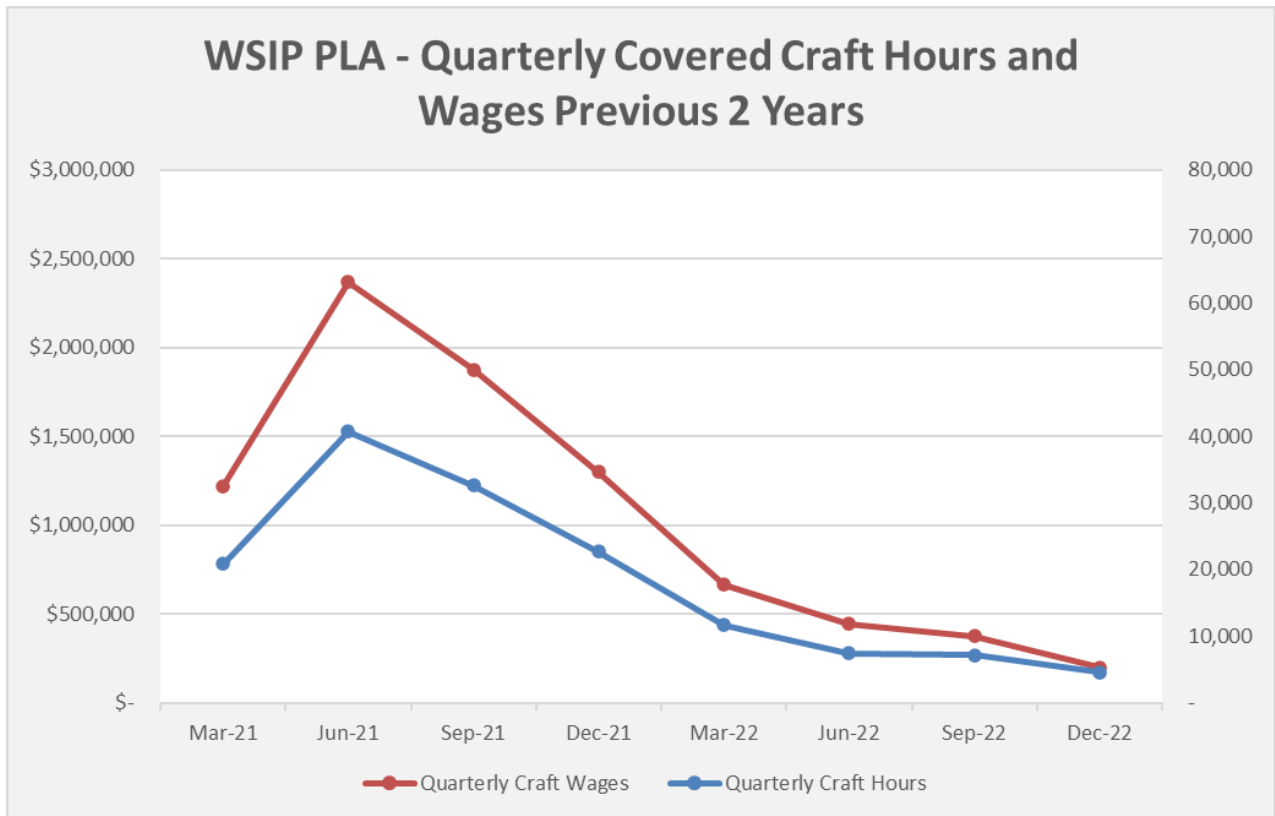

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

The top chart on this page illustrates the values recorded *during* each quarter since inception. With the program surpassing 99% total completion, Craft Hours have and will likely continue to trend down until total completion.

The chart below represents a close-up of the one above, highlighting the past two years.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Second Quarter 2022-2023

**Craft Utilization on WSIP PLA-Covered Projects**

As of December 31, 2022, contractors reported craft hours in 56 craft worker classifications that the SFPUC summarizes into 32 craft areas.

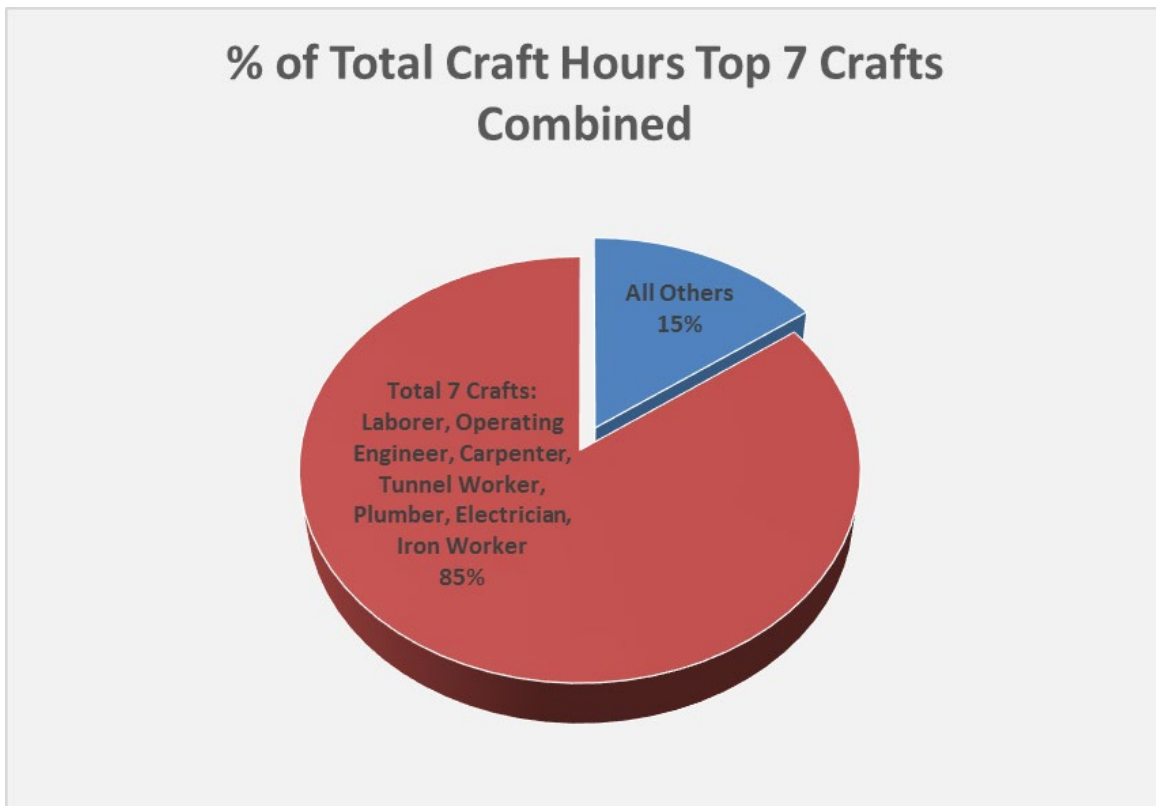

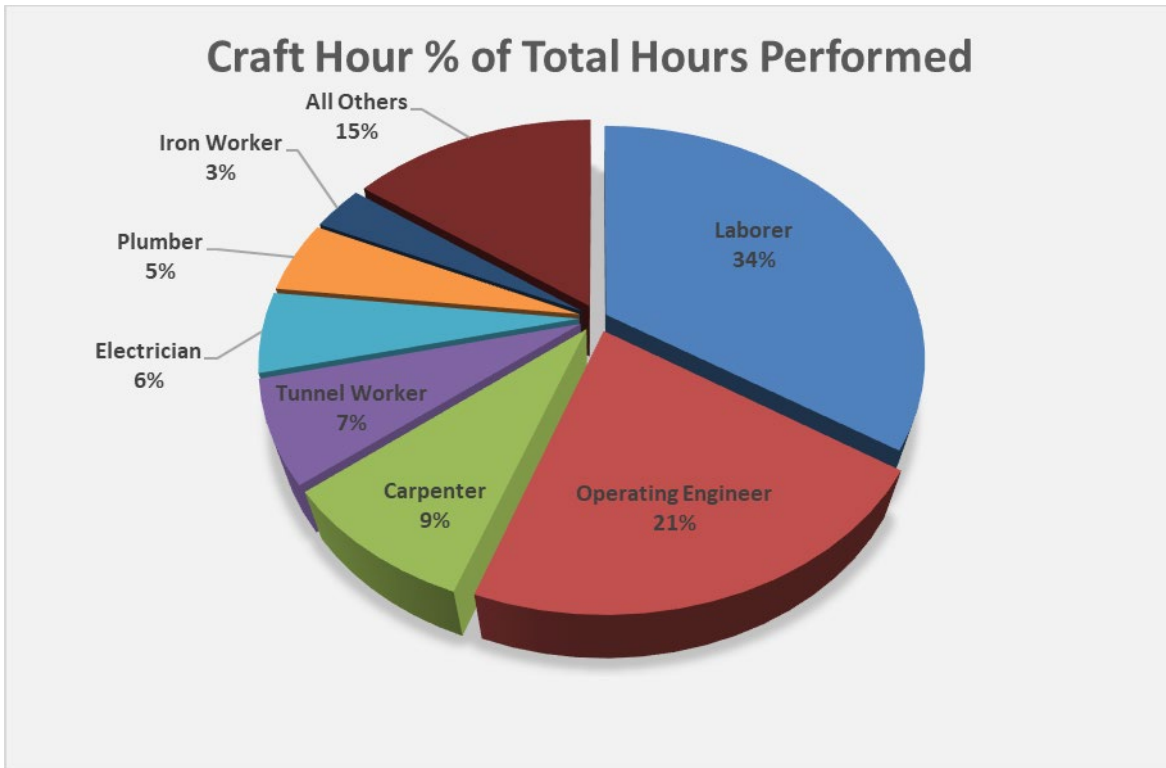

Illustrated here and in the following pages, Laborers, Operating Engineers, Carpenters, and Tunnel Workers, respectively, represent the majority of WSIP PLA craft workers to date. The Plumbers craft numbers include the Advanced Meter Infrastructure (AMI) project which was almost completely performed by Plumbers.

Sorted by Total Craft Hours

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

The charts below represent *Quarterly* participation of the largest four participating trade categories and all others combined on WSIP PLA-covered projects.

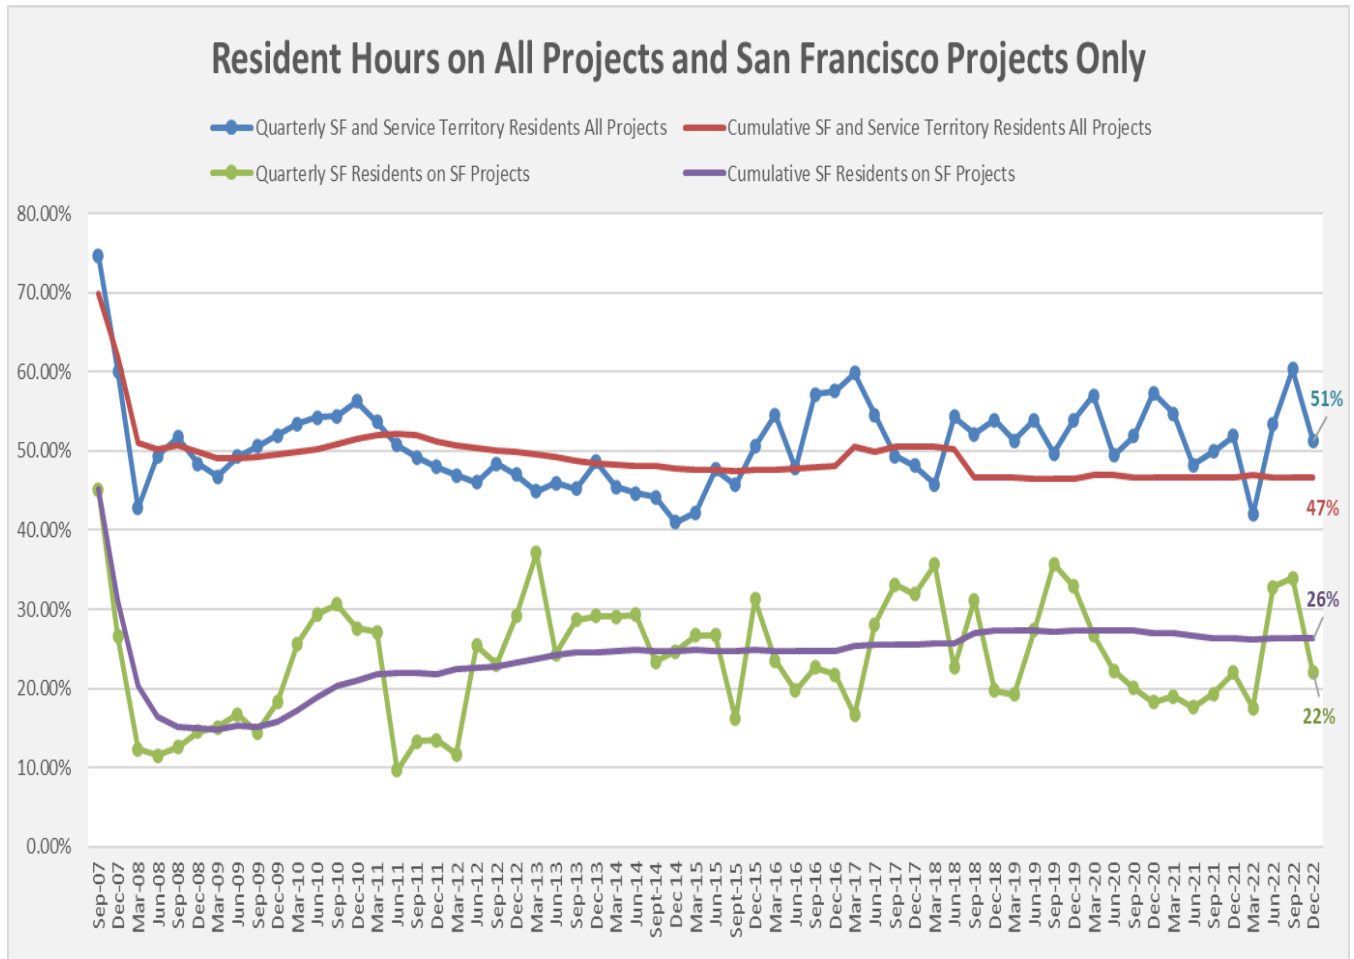

### Worker Residence on the WSIP PLA

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

The Regional Service Territory, covering seven counties, is defined as zip codes outside San Francisco and within which the SFPUC delivers wholesale water, in addition to zip codes impacted by WSIP construction.

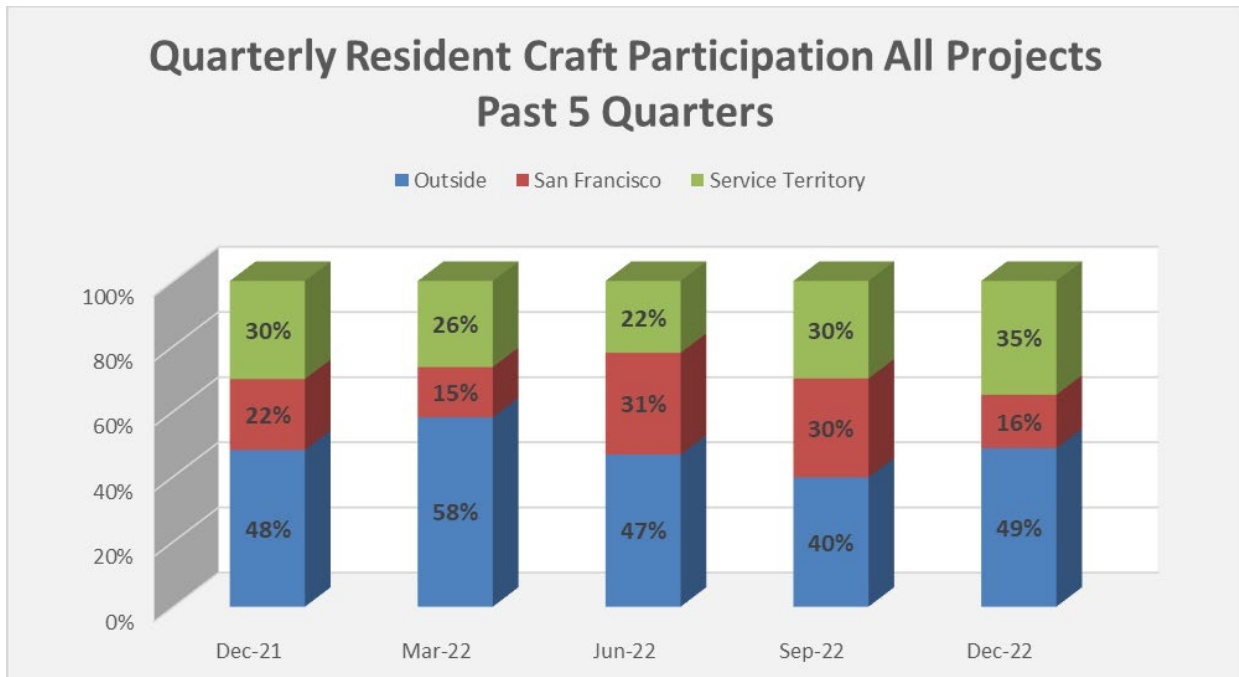

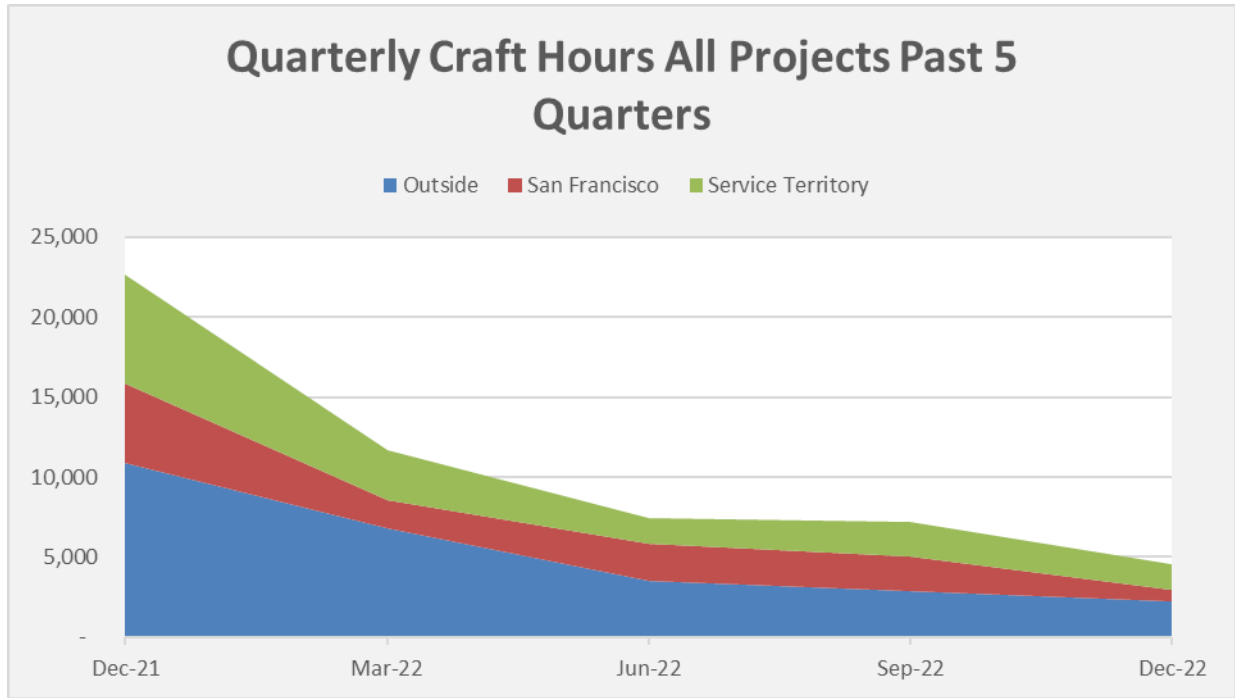

The following chart summarizes the employment percentages of residents of San Francisco and the Regional Service Territory on WSIP PLA-covered projects through December 31, 2022.

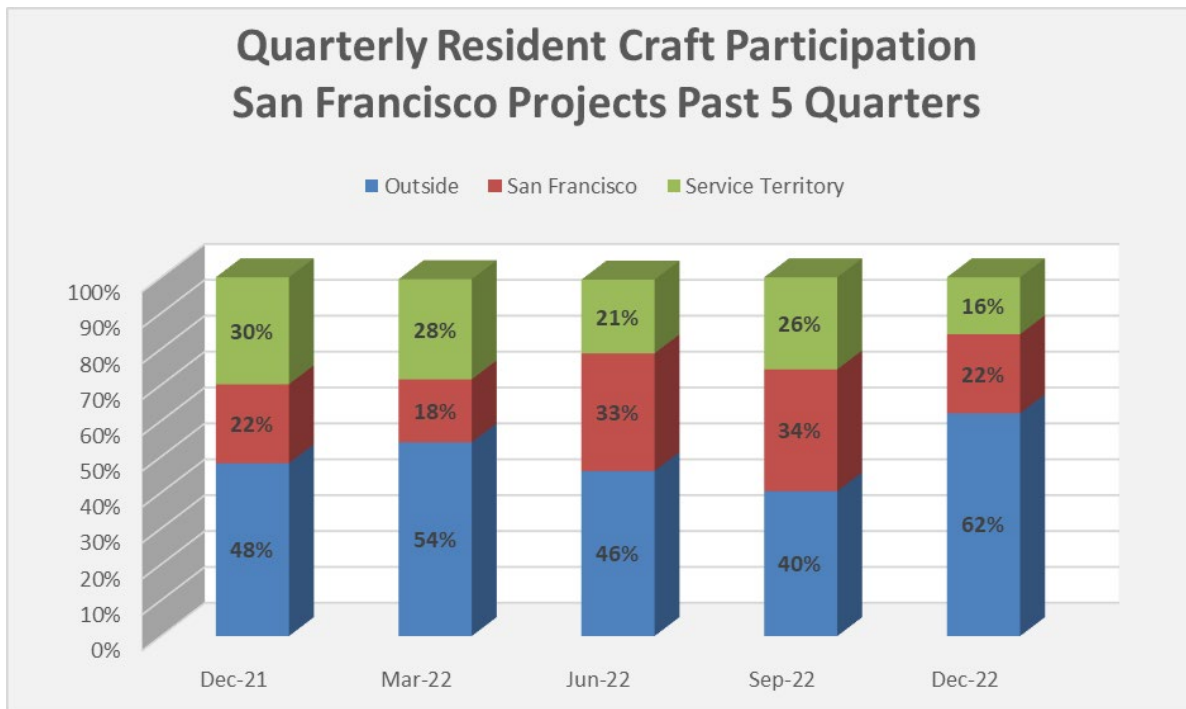

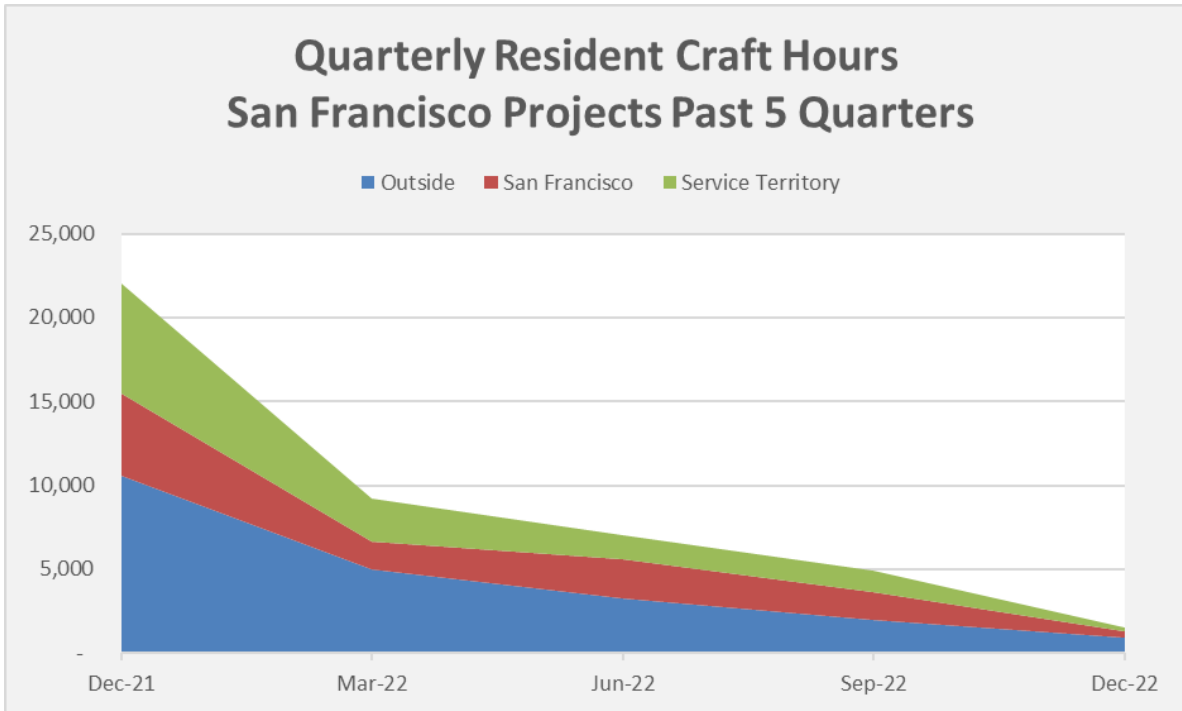

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Second Quarter 2022-2023

**Apprentice Utilization**

The WSIP PLA supports the apprentice ratios provided by the State of California’s, Division of Apprenticeship Standards, generally one apprentice hour to every five journey-level hours.

Through the end of the current quarter, 13.3% of craft hours in apprenticeable trades have been worked by apprentices. 16.4% of apprentice hours were worked by San Francisco residents and 52.8% were worked by residents of the Regional Service Territory, or 69.2% combined.

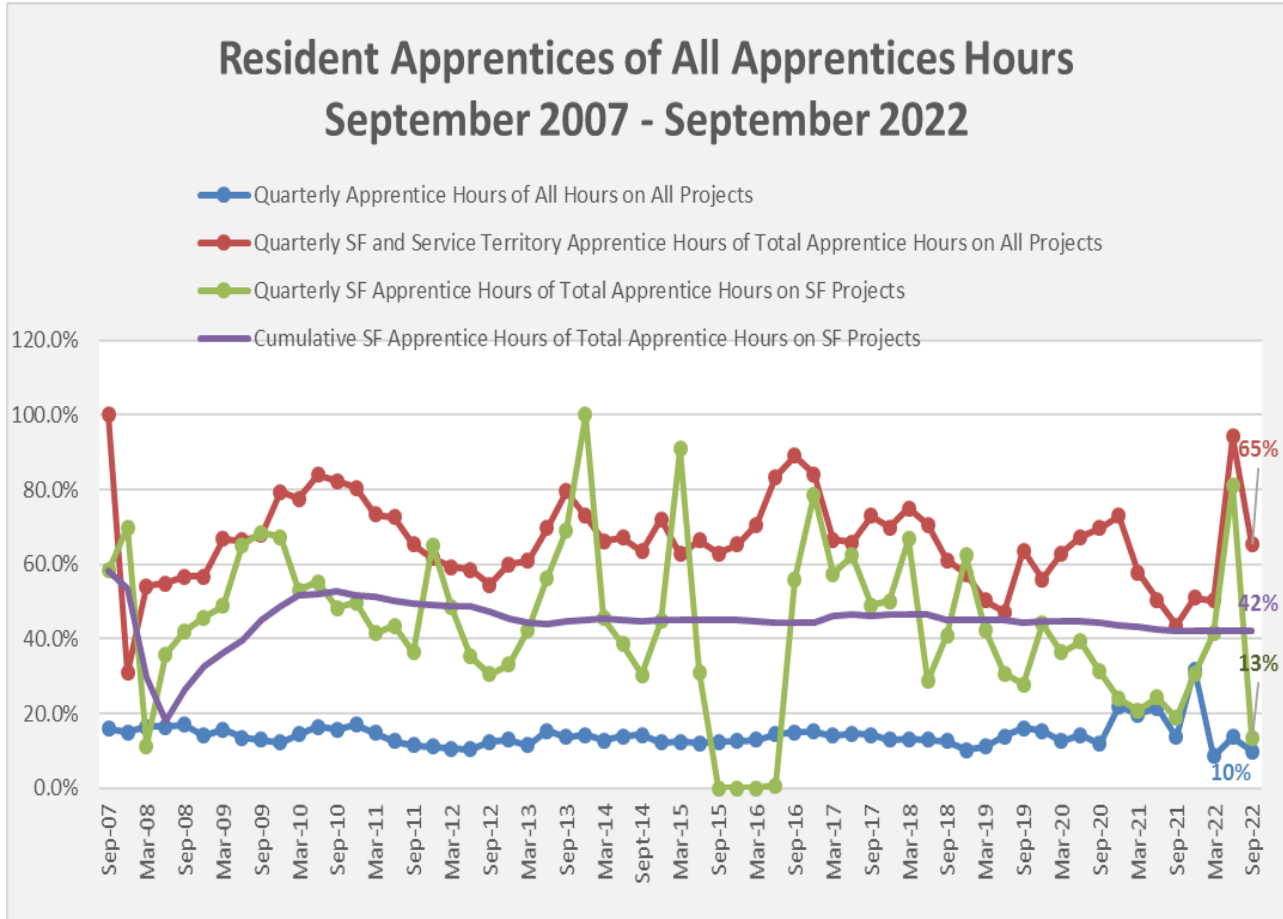

Sorted by Total Craft Hours

| Craft                                 | Total Hours | Total Apprentice Hours | Apprentice Hours    |                |               | Apprentice Utilization            |   |   | Resident Apprentice %  |  |  |
|---------------------------------------|-------------|------------------------|---------------------|----------------|---------------|-----------------------------------|---|---|--|--|--|

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Second Quarter 2022-2023

For the three months ending December 31, 2022, 85% of apprentice hours were worked by San Francisco resident apprentices on San Francisco-located WSIP PLA projects (green line). As the WISP program comes to a close, there are fewer opportunities for apprentices to perform work on projects resulting in the decrease of apprentice participation.

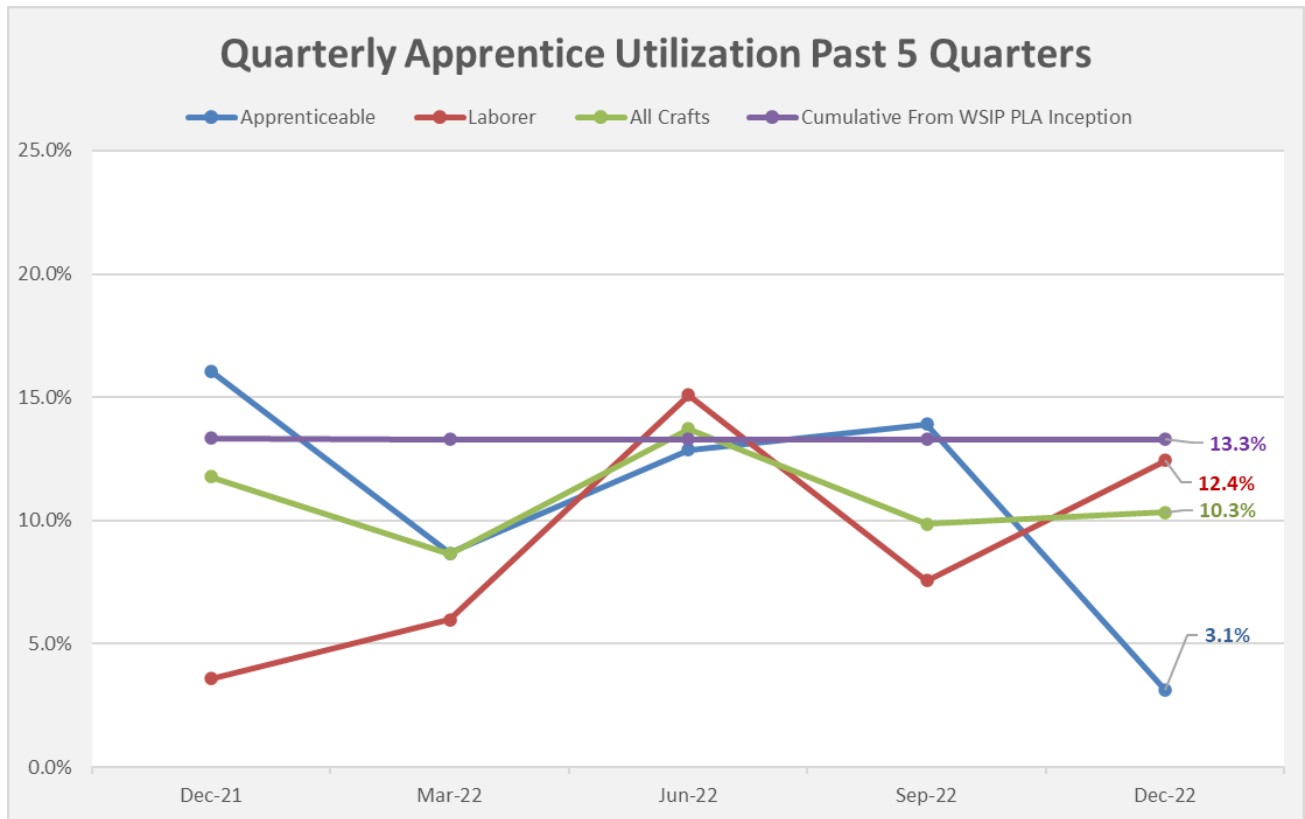

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Second Quarter 2022-2023

The table below lists the WSIP PLA-covered Projects *sorted by Percentage of Apprentice Utilization* from highest to lowest. The total Apprentice Utilization for the entire WSIP is 13.3%.

| WSIP - Covered by PLA Apprentice Utilization By Project |                                   |                                      |                                |                     |  |                             |                          |                        |                          |                      |                    |

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Second Quarter 2022-2023

The following chart indicates quarterly Apprentice Utilization over the past five (5) quarters ending December 31, 2022.

### **Substance Abuse Prevention**

The WSIP PLA requires pre-employment alcohol and drug testing for all covered employees. The policy also allows testing where the contractor has reasonable cause to believe that the employee has used drugs or alcohol, and mandates testing where a contractor concludes that an employee was under the influence of drugs or alcohol at the time of an accident. The SFPUC has extended the WSIP PLA substance abuse prevention policy to all contractor employees working on a job site.

**15,238** pre-employment tests have been administered as of December 31, 2022, to people who were cleared to work. 203 people did not pass pre-employment screens and consequently were prevented from working until the results could be confirmed through lab tests. Strict regulations and high compliance by the contractors have led to a mere **1.31%** of failed screenings. These numbers have a direct correlation with the outstanding safety record of the entire WSIP Program. The chart is on the next page.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Second Quarter 2022-2023

**Legislative History of the WSIP PLA**

On April 8, 2003, the San Francisco Board of Supervisors adopted Resolution 223-03 urging the SFPUC to develop plans for a Project Labor Agreement covering the capital improvement program to rehabilitate, repair, and upgrade the Hetch Hetchy Water System.

On May 20, 2003, the San Francisco Board of Supervisors adopted Resolution 350-03 urging the SFPUC to include social justice components in the Project Labor Agreement covering the Hetch Hetchy Water System upgrade.

On May 11, 2006, the San Francisco Board of Supervisors amended the San Francisco Administrative Code to establish a PUC Small firm Advisory Committee to provide for the certification of small construction contractors located outside San Francisco and within the SFPUC service territory for work on SFPUC construction projects, including those covered by the WSIP PLA.

On March 28, 2006, the SFPUC adopted Resolution No. 06-0049 to authorize SFPUC staff to commence negotiations with the various craft labor unions for a project labor agreement covering the Water System Improvement Program. Resolution No. 06-0049 concluded that the governmental interests of the SFPUC were furthered by a project labor agreement as follows:

“There are numerous advantages in moving forward on the negotiation of a PLA, which include but are not limited to the following: creates framework for labor harmony; militates against construction delays; assures steady supply of qualified labor; provides employment, career, and local business opportunities; and, other benefits ...”

On March 26, 2007, the SFPUC approved the negotiated agreement, called the Water System Improvement Program Project Labor Agreement (the WSIP PLA). The WSIP PLA requires construction contractors to utilize workers dispatched by signatory unions, and prohibits the unions and contractors from participating in strikes, lockouts, or other disruptions to the work. The WSIP PLA provides a procedure for adjudicating conflicting jurisdictional claims between the unions, provides for uniform hours of work, overtime, shifts and holidays, encourages the recruitment and training of low-income residents of the SFPUC service territory, and requires substance abuse testing for all covered workers. The first implementation of the WSIP PLA was on contract WD-2504, the Stanford Heights Reservoir Seismic Retrofit and Improvement project which the SFPUC awarded to S.J. Amoroso Construction Co., LLC, on June 26, 2007, in the amount of \$17,899,960.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Second Quarter 2022-2023

**Governance**

The parties to the WSIP PLA have established a four person Joint Administrative Committee that reviews the implementation of the agreement and the progress of the covered projects, and resolves problems and grievances that arise in connection with the agreement. The SFPUC administers the agreement under the direction of the Joint Administrative Committee.

The Joint Administrative Committee has established the Jobs Training Opportunities Program to promote the employment and training of San Francisco and SFPUC Service Territory residents on WSIP projects.

**Pre-Job Conferences and Jurisdictional Disputes**

Prior to the commencement of construction, representatives of the participating contractors and subcontractors, the Unions, and the SFPUC, are mandated to attend a pre-job conference held at the offices of the SFPUC or the offices of the local Building and Construction Trades Council. At the pre-job conference each contractor and subcontractor describes the scope of their work and assigns the work on the basis of traditional craft jurisdictional lines. When conflicting claims for work are submitted to a contractor, the WSIP PLA's Jurisdictional Dispute Resolution procedure is invoked to prevent delay or disruption in the work due to jurisdictional disputes.

**Web-Based Labor Compliance Program**

All SFPUC construction projects including those covered by the WSIP PLA utilize the City's web-based labor compliance program (LCPtracker, Inc.) which allows contractors to submit their weekly certified payroll reports electronically over the internet. LCPtracker's electronic certified payrolls are used to produce the employment data included in this report.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Third Quarter 2022-2023

**Executive Summary**

Since it was adopted on March 16, 2007, the WSIP Project Labor Agreement (PLA) has promoted the public interest by ensuring the timely and economical completion of WSIP projects. The WSIP PLA has provided the structure to promote efficiency of construction of the WSIP, facilitate the partnership between the SFPUC, Unions, and Contractors, provide for peaceful settlement of labor disputes, and facilitate the employment of residents.

Progress on WSIP construction projects provides employment for construction workers employed by union-signatory and non-union construction contractors. Sixty-two (62) WSIP contracts have been awarded subject to the WSIP PLA in the amount of \$2.248 billion in original contract award through March 31, 2023.

Construction Activity Highlights – Program-to-Date

**Contracting:**

- Sixty-two (62) construction contracts with a value of \$2.248 billion in original contract award have been awarded subject to the WSIP PLA.

**Employment:**

- Since inception, 16,236 construction workers were employed for 8,882,574 hours and earned wages of \$359,607,531 on WSIP PLA-covered projects.
- 1,554 San Francisco residents worked 661,037 hours and earned \$26,300,805 on WSIP PLA-covered projects representing 7.4% of covered hours and 318 full-time equivalent worker years.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. 6,593 residents of the Regional Service Territory earned wages of \$136,226,896 and worked 3,486,492 hours, representing 39.3% of covered hours and 1,676 full-time equivalent worker years.
- 15,238 pre-employment substance abuse tests have been administered to employees cleared to work on WSIP PLA-covered projects as of March 31, 2023. 203 people were prevented from working on WSIP PLA-covered projects due to receiving a non-negative result.

| Region of Worker Residence | Inception Through March 31, 2023 |              |                |       |
|----------------------------|----------------------------------|--------------|----------------|-------|
|                            | Worker Count                     | Sum of Hours | Sum of Wages   | FTE   |
| All Workers                | 16,236                           | 8,882,574    | \$ 359,607,531 | 4,270 |
| San Francisco              | 1,554                            | 661,037      | \$ 26,300,805  | 318   |

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Third Quarter 2022-2023

Construction Activity Highlights – Quarter Ending March 31, 2023

**Contracting:**

- There were no contracts awarded during the reporting period.

**Employment:**

- 87 construction workers were employed for 2,353 hours and earned wages of \$122,014 on WSIP PLA-covered projects.
- 25 San Francisco residents worked 466 hours and earned wages of \$24,015 on WSIP PLA-covered projects.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. During this quarter, 30 residents of the Regional Service Territory worked 577 hours and earned wages of \$29,010 on WSIP PLA-covered projects.
- No new pre-employment substance abuse screenings were administered under the provisions of the WSIP PLA Substance Abuse Policy.

**Summary of Craft Worker Employment**

| Region of Worker Residence | Three Months Ending March 31, 2023 |              |              |      |
|----------------------------|------------------------------------|--------------|--------------|------|
|                            | Worker Count                       | Sum of Hours | Sum Of Wages | FTE* |
| All Workers                | 87                                 | 2,353        | \$ 122,014   | 1    |
| San Francisco              | 25                                 | 466          | \$ 24,015    | 0    |
| SFPUC Service Territory    | 30                                 | 577          | \$ 29,010    | 0    |
| Outside                    | 32                                 | 1,310        | \$ 68,990    | 1    |

\*FTE is the abbreviation for Full Time Equivalent. Since the workers on the projects may only work a few hours or days on the project, this is a way to determine the number of full-time positions created. It is found by taking the Sum of Hours divided by 2,080, the conventional value for total hours worked per year based on a 40-hour work week.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Third Quarter 2022-2023

**Summary Charts**

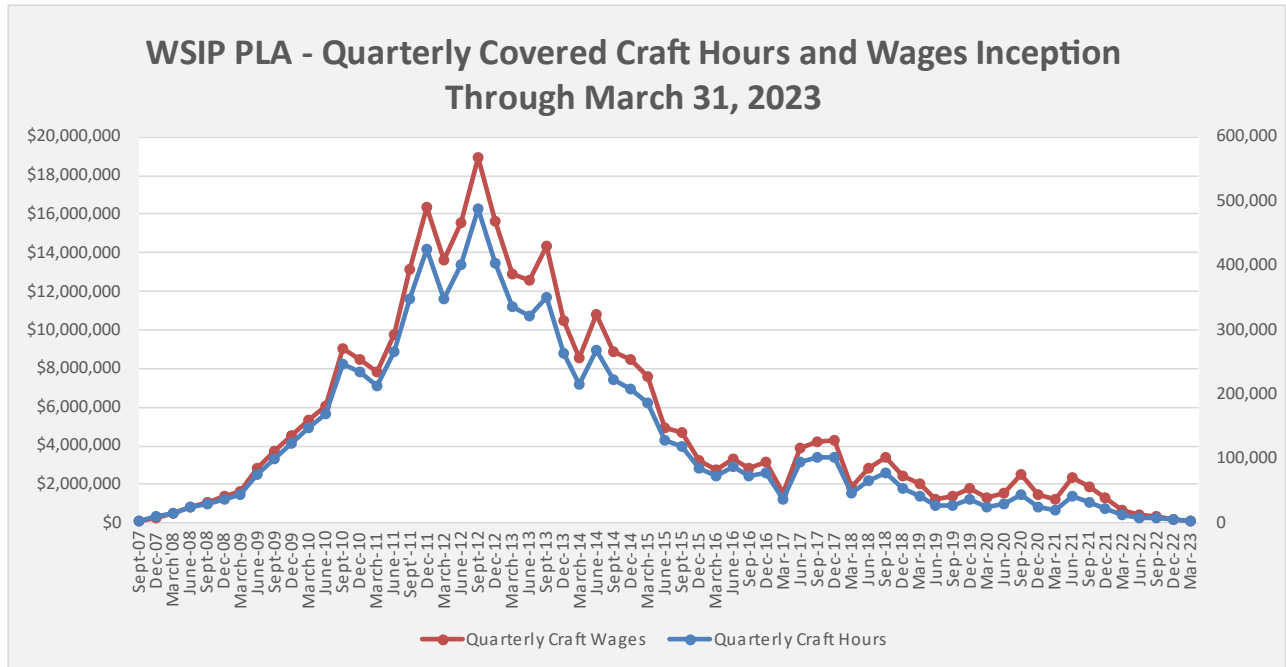

From the inception of the WSIP Project Labor Agreement in March 2007 through the current quarter ending March 31, 2023, 16,236 workers on WSIP PLA-covered projects have achieved a cumulative total of 8,882,574 craft hours and \$359,607,531 in craft wages.

The tables below describe the progressive accumulation of these totals over the past two years.

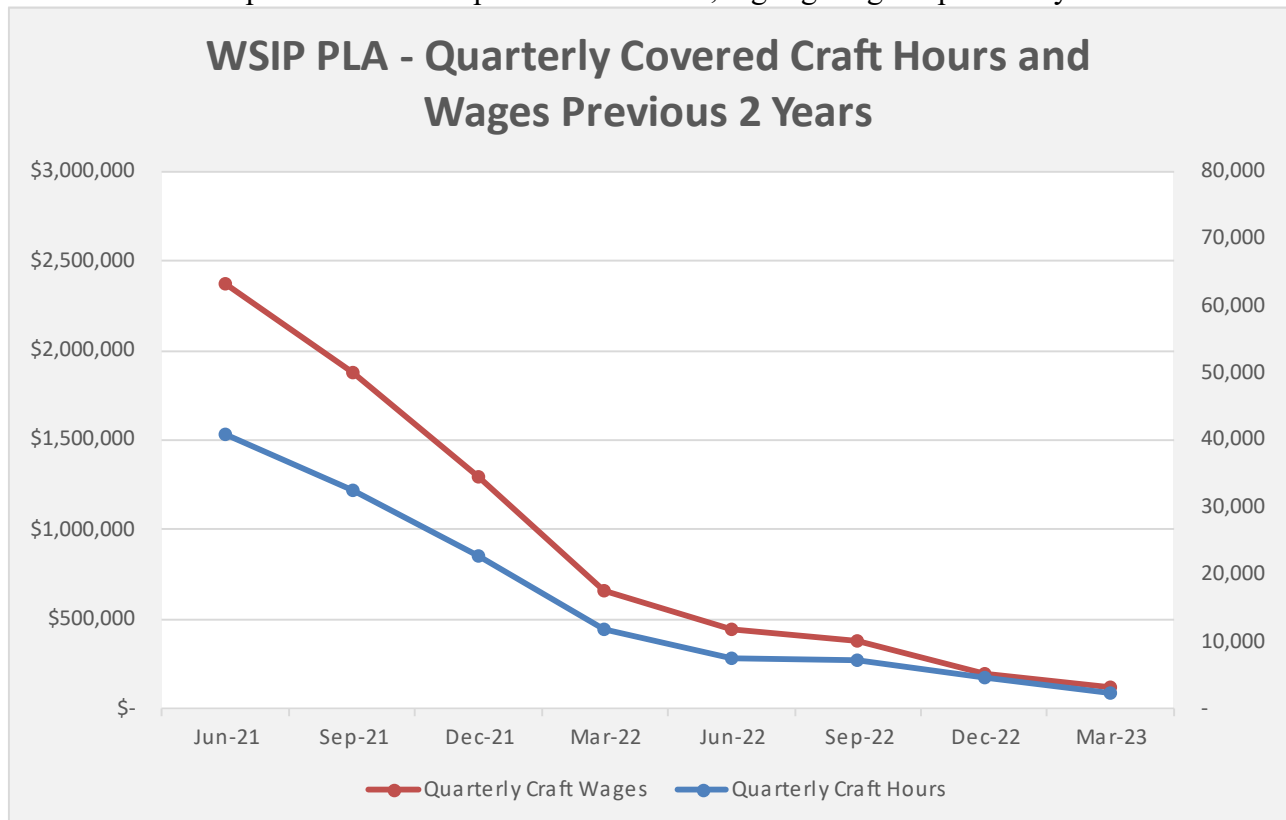

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Third Quarter 2022-2023

The top chart on this page illustrates the values recorded *during* each quarter since inception. With the program surpassing 99% total completion, Craft Hours have and will likely continue to trend down until total completion.

The chart below represents a close-up of the one above, highlighting the past two years.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Third Quarter 2022-2023

**Craft Utilization on WSIP PLA-Covered Projects**

As of March 31, 2023, contractors reported craft hours in 56 craft worker classifications that the SFPUC summarizes into 32 craft areas.

Illustrated here and in the following pages, Laborers, Operating Engineers, Carpenters, and Tunnel Workers, respectively, represent the majority of WSIP PLA craft workers to date. The Plumbers craft numbers include the Advanced Meter Infrastructure (AMI) project which was almost completely performed by Plumbers.

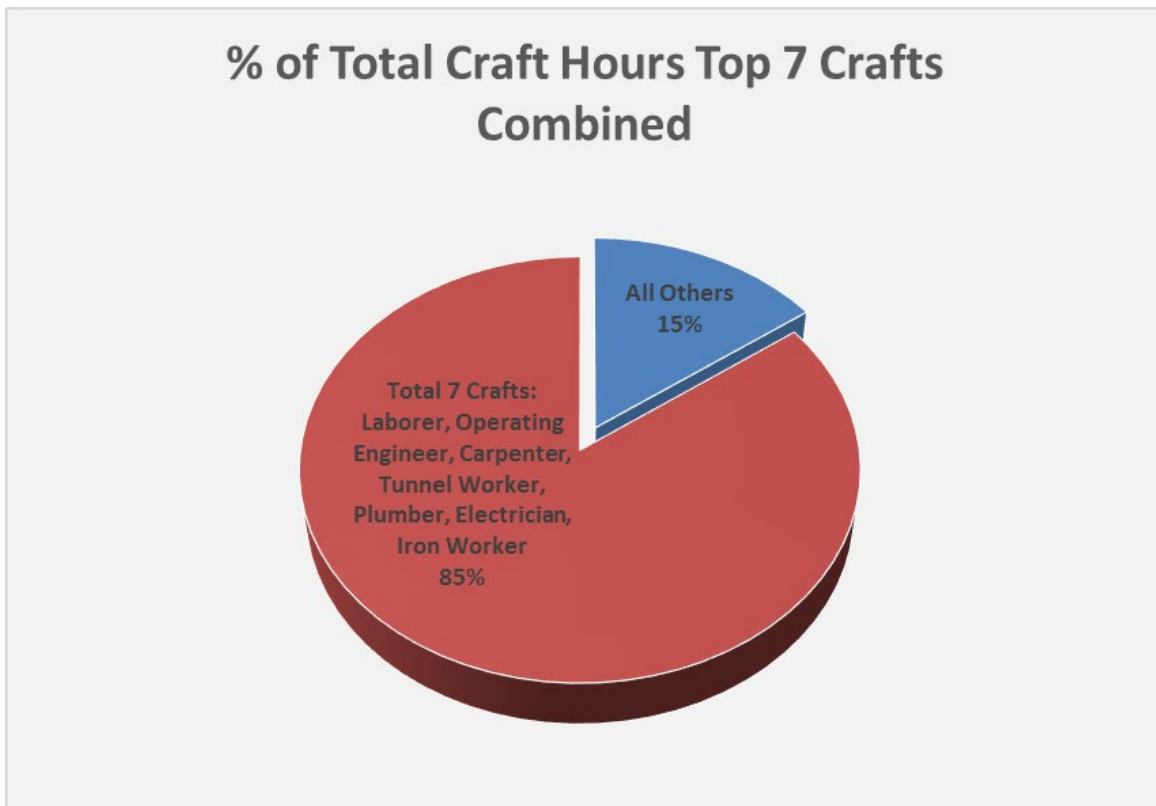

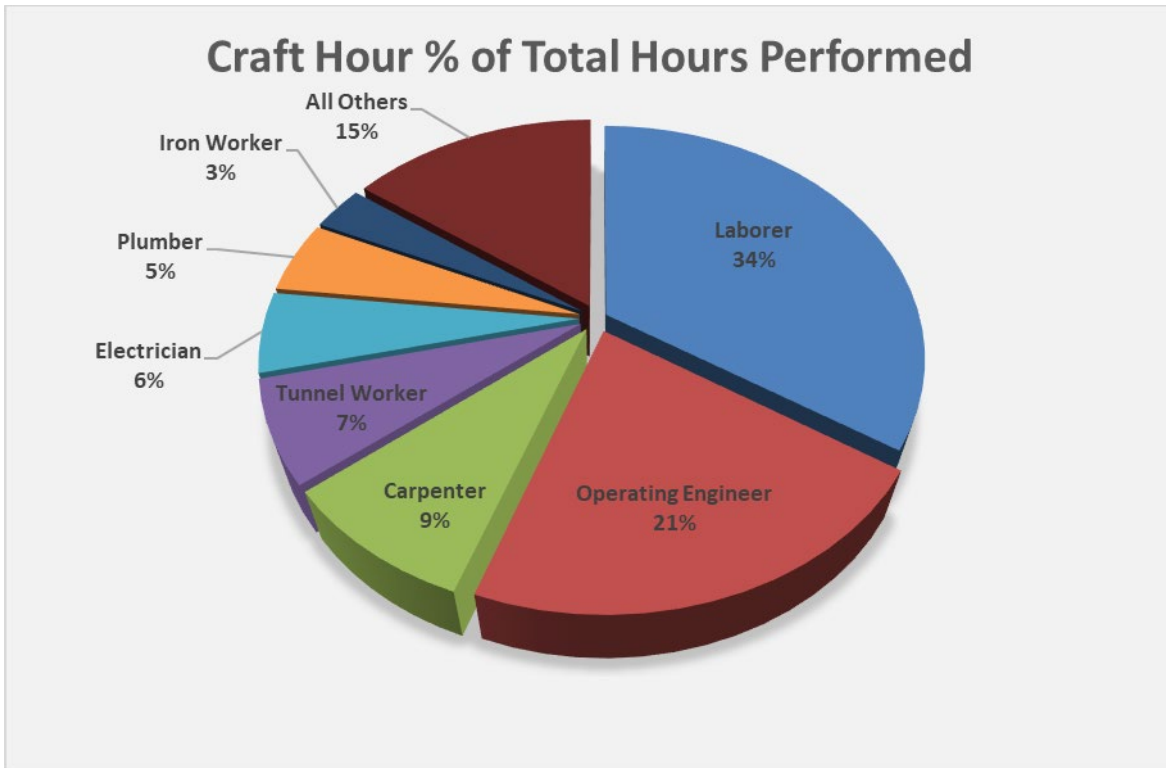

Sorted by Total Craft Hours

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Third Quarter 2022-2023

**Apprentice Utilization**

The WSIP PLA supports the apprentice ratios provided by the State of California’s, Division of Apprenticeship Standards, generally one apprentice hour to every five journey-level hours.

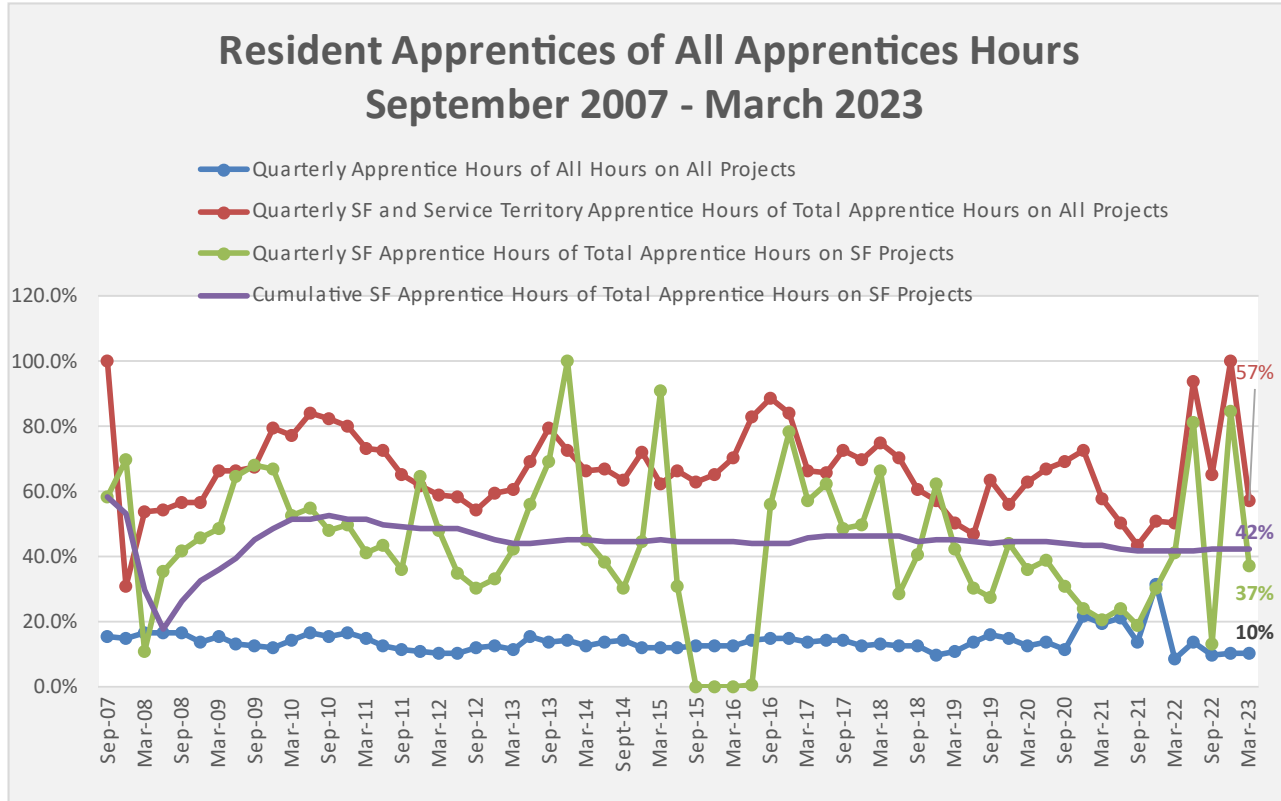

Through the end of the current quarter, 13.3% of craft hours in apprenticeable trades have been worked by apprentices. 16.4% of apprentice hours were worked by San Francisco residents and 52.8% were worked by residents of the Regional Service Territory, or 69.2% combined.

Sorted by Total Craft Hours

| Craft                                 | Total Hours | Total Apprentice Hours | Apprentice Hours    |                |               | Apprentice Utilization            |   |   | Resident Apprentice %  |  |  |

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Third Quarter 2022-2023

For the three months ending March 31, 2023, 37% of apprentice hours were worked by San Francisco resident apprentices on San Francisco-located WSIP PLA projects (green line). As the WISP program comes to a close, there are fewer opportunities for apprentices to perform work on projects resulting in the decrease of apprentice participation.

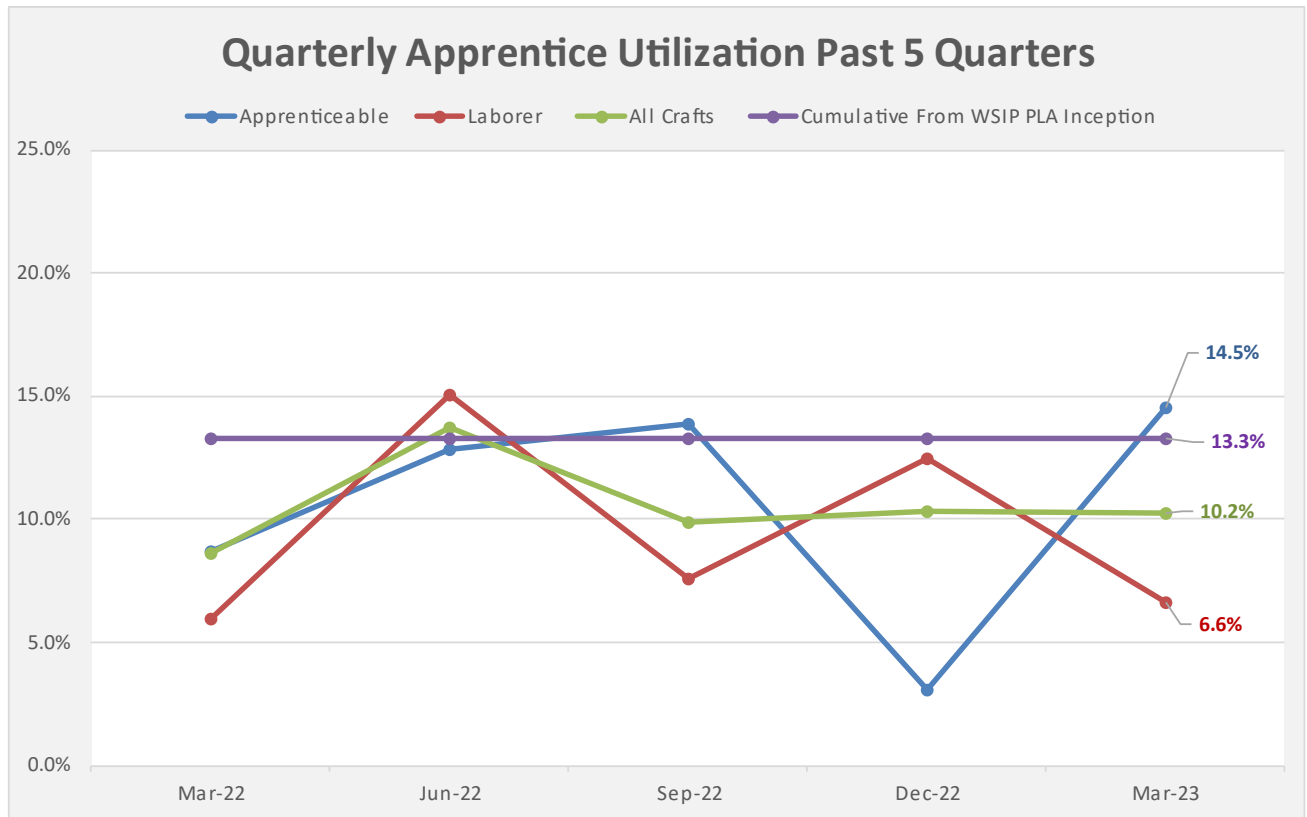

**San Francisco Public Utilities Commission**  
**Water System Improvement Program Project Labor Agreement**  
**Quarterly Report – Third Quarter 2022-2023**

The table below lists the WSIP PLA-covered Projects *sorted by Percentage of Apprentice Utilization* from highest to lowest. The total Apprentice Utilization for the entire WSIP is 13.3%.

| WSIP - Covered by PLA Apprentice Utilization By Project |                                   |                                      |                                |                     |  |                             |                          |                        |                         |                          |                    |

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Third Quarter 2022-2023

**Substance Abuse Prevention**

The WSIP PLA requires pre-employment alcohol and drug testing for all covered employees. The policy also allows testing where the contractor has reasonable cause to believe that the employee has used drugs or alcohol, and mandates testing where a contractor concludes that an employee was under the influence of drugs or alcohol at the time of an accident. The SFPUC has extended the WSIP PLA substance abuse prevention policy to all contractor employees working on a job site.

**15,238** pre-employment tests have been administered as of March 31, 2023, to people who were cleared to work. 203 people did not pass pre-employment screens and consequently were prevented from working until the results could be confirmed through lab tests. Strict regulations and high compliance by the contractors have led to a mere **1.31%** of failed screenings. These numbers have a direct correlation with the outstanding safety record of the entire WSIP Program. The chart is on the next page.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Third Quarter 2022-2023

**Legislative History of the WSIP PLA**

On April 8, 2003, the San Francisco Board of Supervisors adopted Resolution 223-03 urging the SFPUC to develop plans for a Project Labor Agreement covering the capital improvement program to rehabilitate, repair, and upgrade the Hetch Hetchy Water System.

On May 20, 2003, the San Francisco Board of Supervisors adopted Resolution 350-03 urging the SFPUC to include social justice components in the Project Labor Agreement covering the Hetch Hetchy Water System upgrade.

On May 11, 2006, the San Francisco Board of Supervisors amended the San Francisco Administrative Code to establish a PUC Small firm Advisory Committee to provide for the certification of small construction contractors located outside San Francisco and within the SFPUC service territory for work on SFPUC construction projects, including those covered by the WSIP PLA.

On March 28, 2006, the SFPUC adopted Resolution No. 06-0049 to authorize SFPUC staff to commence negotiations with the various craft labor unions for a project labor agreement covering the Water System Improvement Program. Resolution No. 06-0049 concluded that the governmental interests of the SFPUC were furthered by a project labor agreement as follows:

“There are numerous advantages in moving forward on the negotiation of a PLA, which include but are not limited to the following: creates framework for labor harmony; militates against construction delays; assures steady supply of qualified labor; provides employment, career, and local business opportunities; and, other benefits ...”

On March 26, 2007, the SFPUC approved the negotiated agreement, called the Water System Improvement Program Project Labor Agreement (the WSIP PLA). The WSIP PLA requires construction contractors to utilize workers dispatched by signatory unions, and prohibits the unions and contractors from participating in strikes, lockouts, or other disruptions to the work. The WSIP PLA provides a procedure for adjudicating conflicting jurisdictional claims between the unions, provides for uniform hours of work, overtime, shifts and holidays, encourages the recruitment and training of low-income residents of the SFPUC service territory, and requires substance abuse testing for all covered workers. The first implementation of the WSIP PLA was on contract WD-2504, the Stanford Heights Reservoir Seismic Retrofit and Improvement project which the SFPUC awarded to S.J. Amoroso Construction Co., LLC, on June 26, 2007, in the amount of \$17,899,960.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Third Quarter 2022-2023

**Governance**

The parties to the WSIP PLA have established a four person Joint Administrative Committee that reviews the implementation of the agreement and the progress of the covered projects, and resolves problems and grievances that arise in connection with the agreement. The SFPUC administers the agreement under the direction of the Joint Administrative Committee.

The Joint Administrative Committee has established the Jobs Training Opportunities Program to promote the employment and training of San Francisco and SFPUC Service Territory residents on WSIP projects.

**Pre-Job Conferences and Jurisdictional Disputes**

Prior to the commencement of construction, representatives of the participating contractors and subcontractors, the Unions, and the SFPUC, are mandated to attend a pre-job conference held at the offices of the SFPUC or the offices of the local Building and Construction Trades Council. At the pre-job conference each contractor and subcontractor describes the scope of their work and assigns the work on the basis of traditional craft jurisdictional lines. When conflicting claims for work are submitted to a contractor, the WSIP PLA's Jurisdictional Dispute Resolution procedure is invoked to prevent delay or disruption in the work due to jurisdictional disputes.

**Web-Based Labor Compliance Program**

All SFPUC construction projects including those covered by the WSIP PLA utilize the City's web-based labor compliance program (LCPtracker, Inc.) which allows contractors to submit their weekly certified payroll reports electronically over the internet. LCPtracker's electronic certified payrolls are used to produce the employment data included in this report.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Fourth Quarter 2022-2023

**Executive Summary**

Since it was adopted on March 16, 2007, the WSIP Project Labor Agreement (PLA) has promoted the public interest by ensuring the timely and economical completion of WSIP projects. The WSIP PLA has provided the structure to promote efficiency of construction of the WSIP, facilitate the partnership between the SFPUC, Unions, and Contractors, provide for peaceful settlement of labor disputes, and facilitate the employment of residents.

Progress on WSIP construction projects provides employment for construction workers employed by union-signatory and non-union construction contractors. Sixty-two (62) WSIP contracts have been awarded subject to the WSIP PLA in the amount of \$2.248 billion in original contract award through June 30, 2023.

Due to the program reaching completion of more than 99% for the past several quarters, beginning April 1, 2023, the SFPUC will provide a condensed report quarterly and a full report annually in January of each calendar year.

Construction Activity Highlights – Program-to-Date

**Contracting:**

- Sixty-two (62) construction contracts with a value of \$2.248 billion in original contract award have been awarded subject to the WSIP PLA.

**Employment:**

- Since inception, 16,248 construction workers were employed for 8,884,350 hours and earned wages of \$359,714,151 on WSIP PLA-covered projects.
- 1,554 San Francisco residents worked 661,420 hours and earned \$26,331,813 on WSIP PLA-covered projects representing 7.4% of covered hours and 318 full-time equivalent worker years.
- The SFPUC Regional Service Territory consists of zip codes in seven counties outside of San Francisco, both in the vicinity of WSIP construction and within which the SFPUC delivers water. 6,597 residents of the Regional Service Territory earned wages of \$136,250,838 and worked 3,486,922 hours, representing 39.3% of covered hours and 1,676 full-time equivalent worker years.
- 15,238 pre-employment substance abuse tests have been administered to employees cleared to work on WSIP PLA-covered projects as of June 30, 2023. 203 people were prevented from working on WSIP PLA-covered projects due to receiving a non-negative result.

**Summary of Craft Worker Employment**

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Fourth Quarter 2022-2023

**Craft Utilization on WSIP PLA-Covered Projects**

As of June 30, 2023, contractors reported craft hours in 56 craft worker classifications that the SFPUC summarizes into 32 craft areas.

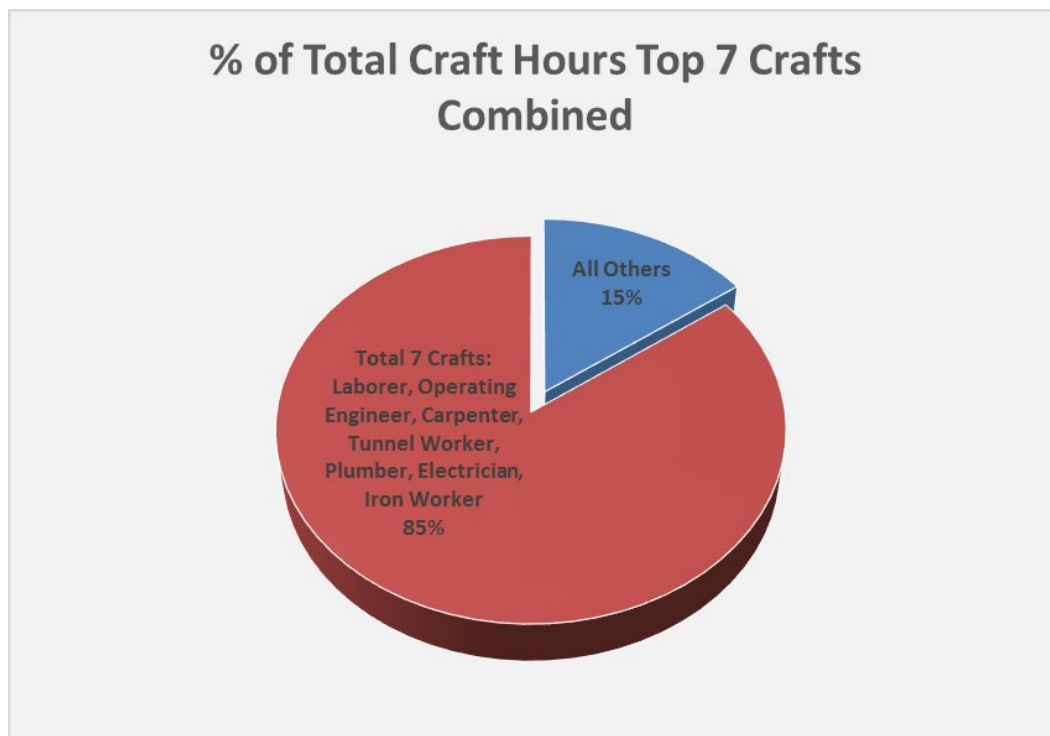

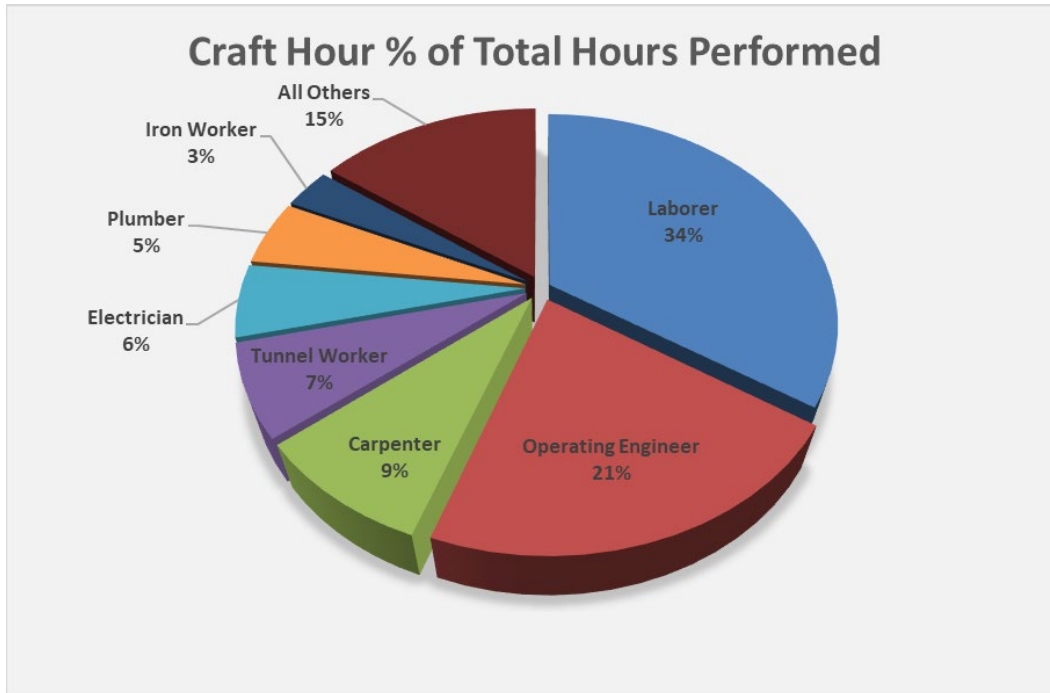

Illustrated here and in the following pages, Laborers, Operating Engineers, Carpenters, and Tunnel Workers, respectively, represent the majority of WSIP PLA craft workers to date. The Plumbers craft numbers include the Advanced Meter Infrastructure (AMI) project which was almost completely performed by Plumbers.

Sorted by Total Craft Hours

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Fourth Quarter 2022-2023

- Laborers, Operating Engineers, Carpenters, and Tunnel Workers and Electricians worked the most hours on WSIP.
- Combined with Plumbers and Iron Workers, these top seven crafts represent 85.2% of all the craft hours worked on WSIP.

San Francisco Public Utilities Commission  
 Water System Improvement Program Project Labor Agreement  
 Quarterly Report – Fourth Quarter 2022-2023

*Residence by County*

- The top 5 counties by total craft hours on WSIP are Alameda County, Contra Costa County, San Joaquin County, San Mateo County, and San Francisco County, respectively.
- These five counties represent more than half (57.7%) of the total hours worked.

Sorted by Total Craft Hours

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Fourth Quarter 2022-2023

**Legislative History of the WSIP PLA**

On April 8, 2003, the San Francisco Board of Supervisors adopted Resolution 223-03 urging the SFPUC to develop plans for a Project Labor Agreement covering the capital improvement program to rehabilitate, repair, and upgrade the Hetch Hetchy Water System.

On May 20, 2003, the San Francisco Board of Supervisors adopted Resolution 350-03 urging the SFPUC to include social justice components in the Project Labor Agreement covering the Hetch Hetchy Water System upgrade.

On May 11, 2006, the San Francisco Board of Supervisors amended the San Francisco Administrative Code to establish a PUC Small firm Advisory Committee to provide for the certification of small construction contractors located outside San Francisco and within the SFPUC service territory for work on SFPUC construction projects, including those covered by the WSIP PLA.

On March 28, 2006, the SFPUC adopted Resolution No. 06-0049 to authorize SFPUC staff to commence negotiations with the various craft labor unions for a project labor agreement covering the Water System Improvement Program. Resolution No. 06-0049 concluded that the governmental interests of the SFPUC were furthered by a project labor agreement as follows:

“There are numerous advantages in moving forward on the negotiation of a PLA, which include but are not limited to the following: creates framework for labor harmony; militates against construction delays; assures steady supply of qualified labor; provides employment, career, and local business opportunities; and, other benefits ...”

On March 26, 2007, the SFPUC approved the negotiated agreement, called the Water System Improvement Program Project Labor Agreement (the WSIP PLA). The WSIP PLA requires construction contractors to utilize workers dispatched by signatory unions, and prohibits the unions and contractors from participating in strikes, lockouts, or other disruptions to the work. The WSIP PLA provides a procedure for adjudicating conflicting jurisdictional claims between the unions, provides for uniform hours of work, overtime, shifts and holidays, encourages the recruitment and training of low-income residents of the SFPUC service territory, and requires substance abuse testing for all covered workers. The first implementation of the WSIP PLA was on contract WD-2504, the Stanford Heights Reservoir Seismic Retrofit and Improvement project which the SFPUC awarded to S.J. Amoroso Construction Co., LLC, on June 26, 2007, in the amount of \$17,899,960.

San Francisco Public Utilities Commission  
Water System Improvement Program Project Labor Agreement  
Quarterly Report – Fourth Quarter 2022-2023

**Governance**

The parties to the WSIP PLA have established a four person Joint Administrative Committee that reviews the implementation of the agreement and the progress of the covered projects, and resolves problems and grievances that arise in connection with the agreement. The SFPUC administers the agreement under the direction of the Joint Administrative Committee.

The Joint Administrative Committee has established the Jobs Training Opportunities Program to promote the employment and training of San Francisco and SFPUC Service Territory residents on WSIP projects.

**Pre-Job Conferences and Jurisdictional Disputes**

Prior to the commencement of construction, representatives of the participating contractors and subcontractors, the Unions, and the SFPUC, are mandated to attend a pre-job conference held at the offices of the SFPUC or the offices of the local Building and Construction Trades Council. At the pre-job conference each contractor and subcontractor describes the scope of their work and assigns the work on the basis of traditional craft jurisdictional lines. When conflicting claims for work are submitted to a contractor, the WSIP PLA's Jurisdictional Dispute Resolution procedure is invoked to prevent delay or disruption in the work due to jurisdictional disputes.

**Web-Based Labor Compliance Program**

All SFPUC construction projects including those covered by the WSIP PLA utilize the City's web-based labor compliance program (LCPtracker, Inc.) which allows contractors to submit their weekly certified payroll reports electronically over the internet. LCPtracker's electronic certified payrolls are used to produce the employment data included in this report.
