

# Concrete Streets Replacement

## Castro Street from Sussex/Bemis to Chenery

The San Francisco Public Utilities Commission (SFPUC) contractor will be excavating, pouring new concrete streets to follow up replacing the aging water main pipes.

**Where:** Work will occur on **Castro Street**, from **Sussex/Bemis** to **Chenery Street**. ([see map to the right](#))

**When:** Construction is anticipated to begin the **week of January 16, 2024**, with an estimated duration of **1 week**. Weather and construction issues could impact the schedule. General workdays and hours are Monday - Friday, 7:30 a.m. to 5:00 p.m. Some night and weekend work may be required.

### What to expect:

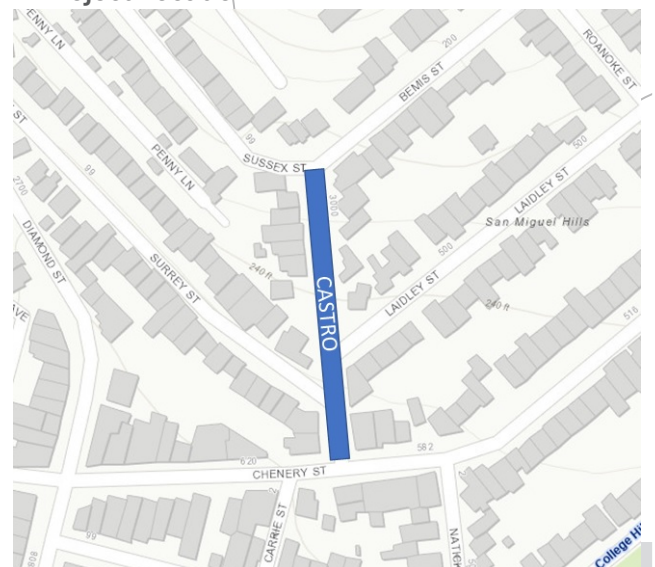

- **SEWER AND WATER SERVICES** in the area will **NOT** be interrupted during construction.
- **PARKING:** Parking will be prohibited on the newly laid concrete for **24 hours**. Contractor will block off the sections and remove them following the curing period. See posted signs for exact information.
- **ACCESS:** Access to Businesses and residents in the work zone will be restored following the 24-hour curing period.
- **NOISE:** While the contractor is required to abide by the City's noise and vibration ordinances, neighbors should expect some noise and limited dust during this work. The project team will work to minimize disruption to normal neighborhood activity; however, there will be occasional inconveniences due to heavy equipment movement and other construction activities.
- **ACTIVITY:** There may be periods of inactivity during the work as crews complete related work on other blocks prior to final completion.
