

Concrete Curb & Sidewalk Replacement

Prospect Ave. from Esmeralda Ave. to Fair Ave.

The San Francisco Public Utilities Commission (SFPUC) contractor will be excavating, pouring new concrete curb, sidewalks and streets to follow up replacing the aging water main pipes.

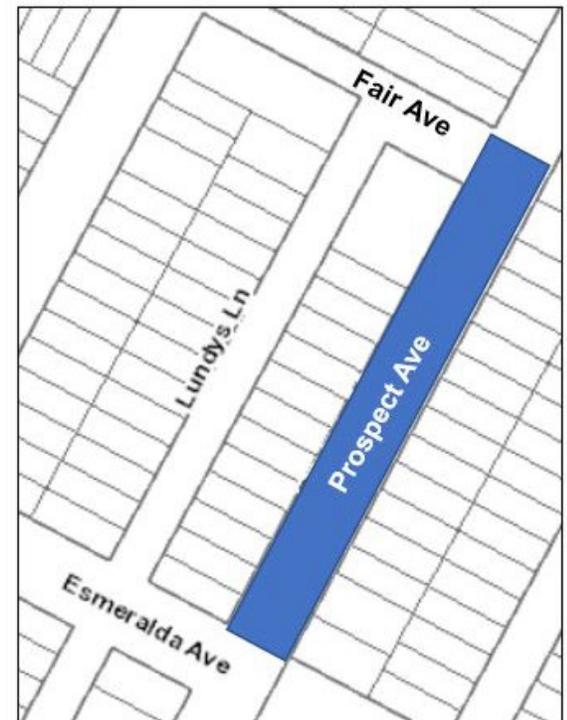

Where: Work will occur on **Prospect Avenue**, between **Esmeralda Avenue** and **Fair Avenue**. ([see map to the right](#))

When: Curb and sidewalk replacement is anticipated to **begin Monday, April 3 and continue through April 21**. It will be followed by concrete street panel replacement to be noticed separately. Weather and construction issues could impact the schedule. General workdays and hours are **Monday - Friday, 7:00 a.m. to 5:00 p.m.**

What to expect:

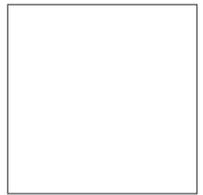

- The work will consist of the construction of new concrete curbs and sidewalks along Prospect Avenue. There may be noise, vibration, dust, parking and traffic impacts in the work zone and disruption to normal neighborhood activity.
- The contractor will first demolish and remove the existing concrete curbs and sidewalks; build forms for the new curbs and sidewalks and pour the concrete. They will work to minimize disruption to driveways. The contractor can plate over the newly demolished/poured areas. Please allow additional time to enter and exit your property during this period so that the contractor can place the plates for you.
- **Once the concrete is poured**, a steel plate can be placed over the concrete to provide driveway access during the curing time.
- **Parking will be prohibited in the work zone during work hours.**
- We apologize for the inconvenience caused by our work and will do all we can to minimize the impact on your neighborhood. If you have concerns (scheduled deliveries, accessibility needs, etc.) please contact the SFPUC representative listed. We will do everything possible to find a mutually agreeable solution. Thank you in advance for your cooperation and support.
