

10 DAY CONSTRUCTION NOTICE

Bay Division Pipelines #3 & #4 Slip Lining

What: The Hetch Hetchy Regional Water System of the San Francisco Public Utilities Commission (SFPUC) will be slip-lining (inserting smaller diameter pipe) into two large diameter water pipelines to increase protection for the pipelines which cross under the Union Pacific Railroad (UPRR) at Lafayette Street. UPRR is installing a second railroad track above the pipelines which will increase the load on the pipelines.

When: Pre-Construction activities like potholing (drilling small holes to confirm the location of underground utilities) are anticipated to begin the first week of October 2023. Construction activity is planned to continue through Summer 2024. Weather and construction issues could impact the schedule. General workdays and hours (weather permitting) are Monday – Friday, 7:00 a.m. to 6:00 p.m. Some night and weekend work may be required.

Where: The work will occur across an existing SFPUC Right of Way (ROW) near Lafayette Street and Fairway Glen Drive, next to Levi's Stadium in Santa Clara, Calif.

What to expect during construction: Noise, dust, and vibrations may result from construction activities. There should be no impact on nearby properties as SFPUC right-of-way (ROW) will be used to access and exit the construction site.
