UPGRADE FOR SAVINGS

Commercial Customized Energy Efficiency Program

EFFICIENT OPERATION

The San Francisco Public Utilities Commission (SFPUC) Upgrade for Savings program pays cash incentives to customers who modernize their facilities. The Program can help replace outdated equipment with LED lighting, more efficient mechanical equipment, or smart technologies. To be eligible, customers must be on an approved commercial/enterprise electric rate and qualify for at least a \$5,000 incentive (33,300 kilowatt-hours of annual savings).

UPGRADE FOR SAVINGS offers:

- Cash incentives up to \$150,000 based on \$0.15 per kilowatt-hour (kWh) of estimated annual savings
- Technical support for customers who use more than 1 million kWh per year
- Validation of energy savings estimates

FINANCIAL INCENTIVES

Incentives can cover 50% of project costs up to \$150,000 for approved retrofits.

TECHNICAL ASSISTANCE

Customers using at least 1 million kWh per year may qualify for expert engineering support.

CLEAN OPERATION

Upgrades and equipment replacements can reduce maintenance headaches and pay for themselves through lower operating costs.

WHY UPGRADE?

Join California’s clean energy future. Modernize your facility with LED lighting, smart controls, and new efficient equipment. Meet your organization’s sustainability goals. Upgrade for Savings can help you get there.
